Behavior Sheets For Elementary Students:

Inclusive Programming for Elementary Students with Autism Sheila Wagner, 2021-10-05 Appropriate social and communicative behavior is a fundamental concern for parents and teachers of school children. Children and teenagers should be able to move in a safe and socially successful manner through their school years despite changing family culture, their high activity level, and a lack of insight into the consequences of their behavior. One would also hope that they develop a positive character and good values about human rights and social responsibility along the way. The most important long-term goal, however, is that they turn into content-kind and successful fellow human beings. This Social Cartoon Curriculum illustrates more than 120 goals for developing positive personality features, adequate social behavior, and communicative competence. Ideas for long and short-term goals have been selected from existing school programs, general education of values, as well as wishes of parents, teachers, and employers. A precursor of the book was the Cartoon and Script Curriculum for Training Social Behavior and Communication, which aimed at children with Autism Spectrum Disorders. Bernard Opitz, 2014

Classroom Management Comprehensive Guide Stella Tartsinis, 2024-11-07 This guide, tailored to each age group, ensures classroom management strategies evolve as students grow, helping create structured yet supportive learning environments. This is a comprehensive approach to managing behavior at every educational level, offering age-appropriate techniques and templates for assessing and supporting positive classroom behavior.

Elementary Literacy Lessons Janet C. Richards, Joan P. Gipe, 2012-11-12 Innovative and practical, this text helps prepare teachers to support the literacy learning needs of all children in grades K-6, including academically, linguistically, and culturally diverse students. It features original teaching cases written by preservice teachers enrolled in field-based reading, language arts, methods courses, accompanied by commentaries written by experienced teacher educators and skilled classroom teachers. High-interest content and a reader-friendly format encourage critical and reflective thinking about topics important to effective literacy instruction. By promoting reflection about case issues, the text helps prepare future teachers to respond to teaching narratives presented on the practical applications section of the PRAXIS II, an examination required in most states for teacher licensure. The authentic cases candidly and poignantly describe preservice teachers' plans, problems, hopes, disappointments, dilemmas, and reflective thinking as they address the multilayered complexities and ambiguities associated with learning to teach reading and language arts in elementary classrooms. These teaching stories reveal glimpses of literacy instruction and allow us to enter real classrooms and experience the wide varieties of situations that reading, language arts teachers encounter daily. Although the cases are grouped according to specific dimensions of literacy theory and pedagogy, just as in real classrooms, other issues are woven through each case as well. The commentaries provide scholarly and sometimes contrasting perspectives and approaches through which readers might consider the issues presented in the cases. The commentaries represent only particular perspectives, but readers are encouraged to explore and

consider as many perspectives and issues as possible regarding each case Each chapter includes helpful pedagogical features New or critical concepts and terms listed at the beginning of each chapter alert readers to what might be unfamiliar vocabulary Applications and Reflections pages help readers take an active part in analyzing documenting and talking about the particular issues portrayed in the case narratives Using the questions on these pages the cases and accompanying commentaries can be read and discussed as a whole class activity in small collaborative groups or by individuals The questions can also be used by readers to guide their own case writing initiatives Margin References direct readers to correlated readings for the strategies and parallel concepts mentioned in the cases and commentaries Suggested readings can be discussed within the format of literacy study groups Annotated Bibliographies at the end of each chapter help readers construct more in depth knowledge for the instructional strategies and activities discussed in the teaching cases The cases commentaries and pedagogical features in this distinctive text provide rich opportunities for readers to discover what they need to know and how they need to think in order to teach reading and language arts effectively and successfully
