Development of Design Specifications and Commentary for Horizontally Curved Concrete Box-girder Bridges Nutt, Redfield, and Valentine,David Evans and Associates,National Cooperative Highway Research Program,Zocon Consulting Engineers, Inc,2008 This report provides specifications commentary and examples for the design of horizontally curved concrete box girder highway bridges The report details the development of the design procedures Recommended Load and Resistance Factor Design LRFD specifications and design examples illustrating the application of the design methods and specifications are included in appendixes available on the TRB website at http://trb.org/news/blurbs_detail.asp?id=9596

Advances in Steel Structures S.L. Chan,J.G. Teng,2002-11-15 These two volumes of proceedings contain nine invited keynote papers and 130 contributed papers presented at the Third International Conference on Advances in Steel Structures

ICASS 02 held on 9-11 December 2002 in Hong Kong, China. The conference is a sequel to the First and the Second International Conferences on Advances in Steel Structures held in Hong Kong in December 1996 and 1999. The conference provides a forum for discussion and dissemination by researchers and designers of recent advances in the analysis, behaviour, design and construction of steel structures. Papers were contributed from over 18 countries around the world. They report current state of the art and point to future directions of structural steel research covering a wide spectrum of topics including beams and columns, connections, scaffolds and slender structures, cold formed steel, composite construction, plates, shells, bridges, dynamics, impact, mechanics, effects of welding, fatigue and fracture, fire performance and analysis and design.
