Bridging Worlds Understanding Facilitating Adolescence Ebook:

EBOOK: What Works in Inclusion? Chris Boyle, Keith Topping, 2012-09-16 School inclusion is a perennially popular yet polemic topic in most countries. This timely book explores what is known about inclusion, highlighting outstanding examples of inclusion to provide a complete overview of successful inclusion. The book concentrates on how to make inclusion work from the view of internationally established practitioners in the field of teacher education, with a focus on what variables are likely to make a difference in practice. *What Works in Inclusion* covers three key aspects: Theories of inclusive education; Examples of how inclusion can be encouraged and facilitated; What prevents inclusion from being successful. Drawing on case studies from a wide range of countries including USA, Australia, UK, Canada, and Italy, there is focus on the positive aspects of inclusion: how it can work and what actually works, helping you understand successful aspects of inclusion as well as developing an understanding of how inclusive education can best be implemented. In addition to the research-based accounts of how to make inclusion work, the book considers the difficulties that can arise in attempting to achieve successful inclusion and how such barriers can be overcome to ensure a successful inclusive experience for both teachers and students. This is a key text for all serving and aspiring teachers and SENCOs, as well as those interested in inclusion and SEN in schools, and will inform and challenge in equal measure. Contributors: Adrian F. Ashman, Robert Conway, Joanne Deppeler, Roberta Fadda, Laurel M. Garrick, Duhaney Fraser, Lauchlan Margo, Mastropieri Kim M., Michaud Brahm, Norwich Petra, Ponte Diane, Richler Richard, Rose Spencer J., Salend Tom, Scruggs Roger, Slee Jacqueline, Thousand Richard, Villa Catharine, Whittaker. Focusing on both theory and practice, this timely volume provides a refreshing set of challenges to all of us who are committed to the development of more inclusive education systems. The presentation of ideas and experiences from different countries is particularly powerful in this respect. Professor Mel Ainscow, University of Manchester, UK. Boyle and Topping provide a collection of salient chapters on critical issues pertaining to inclusive education from a collection of world leaders in the field. This book is scholarly, current, and research-based yet at the same time readable and informative for a wide audience of university teachers and their students, along with practicing educators in the field. Recognizing that inclusive education is an ongoing project, this book nevertheless provides a rigorous gestalt of inclusive education theory, practical advice for implementation, and potential barriers to success. This is one of the finest books on this topic currently available. Professor Tim Loreman, Faculty of Education, Concordia University, College of Alberta, Canada. **World Englishes in the Arab Gulf States** Kay Gallagher, 2025-04-29 Kay Gallagher gathers insightful research from across the lower Arabian Gulf to uncover the richness and diversity of World Englishes within the contemporary Arab Gulf states. Her volume presents novel research from this emerging nexus of rapid economic, social, and linguistic development. The countries of the lower Arabian Gulf—Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, and the United Arab Emirates—have to varying degrees harnessed English as an internal working language and as a means to communicate globally. Gulf countries that have not featured much in the WE

literature to date are highlighted in this volume including Bahrain and Kuwait and the use of English in the emerging colossus of Saudi Arabia is examined Novel insights from more prominent locations are presented here for the first time including the use of English to counter negative Islamic stereotypes during the FIFA World Cup 2022 in Qatar and its role in ensuring safety in a multilingual high risk industry in the UAE New research into the challenges encountered in English medium higher education in Oman and Kuwait is reported also The linguistic features of Gulf English are explored and the interplay and tensions between Arabic and English and other languages are addressed The Englishes of expatriate populations in the Gulf are examined including the English identity of majority and minority resident transnational groups The issue of whether a distinctive variety of Gulf English has emerged in this multilingual melting pot characterized by transience and flux is debatable and the establishment of Gulf English as an endonormative new variety remains elusive This book will appeal to those with an interest in World Englishes in general as well as those who are interested in the roles and varieties of English in use in this globally unique and rapidly evolving context The six states of the Lower Gulf Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE form an economic and political alliance known as the Gulf Cooperation Council GCC The region's oil rich economies have attracted millions of migrant workers both blue collar and white collar from East and West Transnational workers have brought linguistic diversity along with multiple varieties of English to this traditionally Arabic speaking region amplifying an increased internal demand for English such that English is shifting in the Gulf from a foreign language to a lingua franca
