Connectivity Geopolitics in Nepal Bipin Ghimire, 2025-11-20 This book is a critical articulation of Nepal's connectivity geopolitics offering a triangular analysis of the country's geopolitics connectivity and foreign policy. By elucidating the interplay between these elements, it contributes to a deeper understanding of how smaller states strategically balance aspirations and trade-offs in navigating the contemporary reality of connectivity geopolitics amidst competing global interests. Furthermore, it helps us examine how insights generated from a country's history of strategic culture could be valuable in navigating the contemporary reality of connectivity geopolitics and why one should not take foreign support for connectivity at face value. The narrative portrays the Cold War and post-Cold War dynamics between superpowers and regional powers like China and India in South Asia, elucidating how their relations shape the region's politics. This study also examines how smaller states such as Nepal establish their agency by navigating external pressures while asserting their strategic interests. By introducing connectivity as an analytical lens, the book transcends the conventional lens of security and small state approaches to Nepal's foreign policy. Central to the book's analysis is Nepal's foreign policy and its navigation of regional politics, striving to balance the interests of India and China during the Cold War era and also the contemporary era. Consequently, regional politics emerges as a prominent theme within the book.

The Domestication of Competition Jonathan Hearn, 2023-02-16 Competition is deeply built into the structures of modern life. It can improve policies, products, and services but is also seen as a divisive burden that pits people against one another. This book seeks to go beyond such caricatures by advancing a new thesis about how competition came to shape our society. Jonathan Hearn argues that competition was domesticated, harnessed, and institutionalised across a range of institutional spheres in the late eighteenth and early nineteenth centuries. Responding to crises in traditional forms of authority, hereditary religious, the formalisation of competition in the economy, politics, and diverse new forms of knowledge creation provided a new mode for legitimating distributions of power in the emerging liberal societies. This insightful study aims to improve our ability to think critically about competition by better understanding its integral role for good and ill in how liberal forms of society work.

Technical Arts in the Han Histories Mark Csikszentmihalyi, Michael Nylan, 2021-11-01 While cultural literacy in early China was grounded in learning the Classics, basic competence in official life was generally predicated on acquiring several forms of technical knowledge. Recent archaeological finds have brought renewed attention to the use of technical manuals and mantic techniques within a huge range of discrete contexts, pushing historians to move beyond the generalities offered by past scholarship. To explore these uses, *Technical Arts in the Han Histories* delves deeply into the rarely studied Treatises and Tables compiled for the first two standard histories, the *Shiji* (Historical Records) and *Hanshu* (History of Han), important supplements to the better-known biographical chapters and models for the inclusion of technical subjects in the twenty-three later Standard Histories of imperial China. Indeed, for a great many aspects of life in early imperial society, they constitute our

best primary sources for understanding complex realities and perceptions The essays in this volume seek to explain how different social groups thought of disseminated and withheld technical knowledge relating to the body politic and cosmos in the process of detailing the preoccupations of successive courts from Qin through Eastern Han in administering the localities the frontier zones and their numerous subjects at the time roughly one quarter of the world's population

China's Thought Management Anne-Marie Brady,2012-02-06 China's Thought Management argues that by re-emphasizing and modernizing propaganda and thought work since 1989 the CCP has managed to overcome a succession of local and national level crises the Tiananmen Square protests of 1989 the impact of the collapse Socialism in the Eastern bloc SARS ethnic clashes in Tibet and Xinjiang to name but a few emerging re-strengthened and as dominant in Chinese society as ever The contributors to this book address such crucial issues as the new emphasis on economic propaganda the continued importance of the PLA propaganda system in China's overall propaganda work and political stability how the CCP uses Confucianism in its foreign and domestic propaganda and new approaches to mass persuasion such as campaigns of mass distraction Each chapter is a case study of the multiple ways in which the CCP has modified and adjusted its propaganda to reflect China's changed economic and political environment Challenging readers to reconceptualise mainstream understandings of the CCP's hold on power and the means the CCP government adopts to maintain its authority to rule this book will be invaluable reading for anyone interested in the Chinese media and Chinese politics

Living with Digital Surveillance in China Ariane Ollier-Malaterre,2023-10-06 Digital surveillance is a daily and all encompassing reality of life in China This book explores

how Chinese citizens make sense of digital surveillance and live with it. It investigates their imaginaries about surveillance and privacy from within the Chinese socio-political system. Based on in-depth qualitative research, interviews, detailed diary notes, and extensive documentation, Ariane Ollier Malaterre attempts to de-Westernise the internet and surveillance literature. She shows how the research participants weave a cohesive system of anguishing narratives on China's moral shortcomings and redeeming narratives on the government and technology as civilising forces. Although many participants cast digital surveillance as indispensable in China, their misgivings, objections, and the mental tactics they employ to dissociate themselves from surveillance convey the mental and emotional weight associated with such surveillance exposure. The book is intended for academics and students in internet surveillance and Chinese studies and those working on China in disciplines such as sociology, anthropology, social psychology, psychology, communication, computer sciences, contemporary history, and political sciences. The lay public interested in the implications of technology in daily life or in contemporary China will find it accessible as it synthesises the work of sinologists and offers many interview excerpts.

Law Codes in Dynastic China John Warren Head, Yanping Wang, 2005. In telling the story of Law Codes in Dynastic China, John Head and Yanping Wang offer a bird's-eye view of Chinese legal history from the earliest dynasties to the last. They survey the majestic sweep of China's legal tradition by allowing the details to emerge from the works of many scholars and then connecting those details in a storyline that revolves around a unifying theme: legal codification. In this way, *Law Codes in Dynastic China* brings to life such characters as the Duke of Zhou, Confucius, Kubilai Khan, and dozens of other emperors, rebels, scholars, and eunuchs. The book also illuminates the great movements and philosophies of China: Imperial Confucianism, Legalism, correlative cosmology, Daoism, and others, all in order to reveal both the spirit and the practicalities of law in dynastic China. This new one-volume text will prove valuable not only for researchers in the areas of Chinese law, legal history, and Chinese history but also for students in a variety of undergraduate and graduate programs and for legal practitioners whose work calls for them to have a historically based understanding of China's legal culture. For all readers, the book provides comprehensive citation to authorities and sources for further study, with special emphasis on recent findings and translations. Moreover, for the general lay reader, the book offers a fascinating look at the intersection of three paths of literature and learning: law, history, and China. In doing so, it facilitates a broader appreciation of contemporary China as well. I have never enjoyed reading a book of history so much since Terry Jones' *The Crusades*. However, it is also a serious book. Despite the breathtaking speed with which the authors drag the reader through the highs and lows of Dynastic China, the authors are careful in their presentation and are faithful to the sources, a useful sourcebook for researchers as well as an entertaining read. *Law Politics Book Review*

The Spirit of Traditional Chinese Law Geoffrey MacCormack, 1996. By the end of the eighth century A.D., imperial China had established a system of administrative and penal law, the main institutions of which lasted until the collapse of the Ch'ing dynasty in 1911. *The Spirit of Traditional Chinese Law* studies the views held throughout the centuries by the educated elite

on the role of law in government the relationship between law and morality and the purpose of punishment Geoffrey MacCormack's introduction offers a brief history of legal development in China describes the principal contributions to the law of the Confucian and Legalist schools and identifies several other attributes that might be said to constitute the spirit of the law Subsequent chapters consider these attributes which include conservatism symbolism the value attached to human life the technical construction of the codes the rationality of the legal process and the purposes of punishment A study of the spirit of the law in imperial China is particularly appropriate says MacCormack for a number of laws in the penal codes on family relationships property ownership and commercial transactions were probably never meant to be enforced Rather such laws were more symbolic and expressed an ideal toward which people should strive In many cases even the laws that were enforced such as those directed at the suppression of theft or killing were also regarded as an emphatic expression of the right way to behave Throughout his study MacCormack distinguishes between official or penal and administrative law which emanated from the emperor to his officials and unofficial or customary law which developed in certain localities or among associations of merchants and traders In addition MacCormack pays particular attention to the law's emphasis on the hierarchical ordering of relationships between individuals such as ruler and minister ruler and subject parent and child and husband and wife He also seeks to explain why over nearly thirteen centuries there was little change in the main moral and legal prescriptions despite enormous social and economic changes

Heaven Has Eyes Xiaoqun Xu, 2020-08-03 *Heaven Has Eyes* is a comprehensive but concise history of Chinese law and justice from the imperial era to the post Mao era Never before has a single book treated the traditional Chinese law and judicial practices and their modern counterparts as a coherent history addressing both criminal and civil justice This book fills this void Xiaoqun Xu addresses the evolution and function of law codes and judicial practices throughout China's long history and examines the transition from traditional laws and practices to modern ones in the twentieth century To the Chinese of the imperial era justice was an alignment of heavenly reason tianli state law guofa and human relations renqing Such a conception did not change until the turn of the twentieth century when Western derived notions natural rights legal equality the rule of law judicial independence and due process came to replace the Confucian moral code of right and wrong The legal judicial reform agendas that emerged in the beginning of the twentieth century and are still ongoing today stemmed from this change in Chinese moral and legal thinking but to materialize the said principles in everyday practices is a very different order of things and the past century was fraught with legal dramas and tragedies *Heaven Has Eyes* lays out how and why that is the case
