Buying Whiteness Race Culture And Identity From Columbus To Hip Hop:

Buying Whiteness (TP Edition Cancelled, See TC 1-4039-6071-2) Gary Taylor, 2003 When and why did white people start calling themselves white When and why did white slavery become a paradox To answer such questions Taylor begins with the auction of a white slave in the first African American novel William Wells Brown's *Clotel* 1853 and contrasts Brown's basic assumptions about race slavery and sexuality with treatment of those issues in scenes of slave marketing in English Renaissance drama From accounts of Columbus and other early European voyagers to popular English theatre fiction and journalism three centuries later Taylor traces a paradigm shift in attitudes toward white men which transformed seventeenth century art law science and philosophy Moving between the English Renaissance and the American Renaissance of the 1850s this original and provocative book recovers the lost interracial history of the birth of whiteness *Consuming Whiteness* Stefanie Affeldt, 2014 The White Australia Policy the country's historical policy that favored immigration to Australia from various European countries especially Britain has largely been discussed with regard only to its political ideological perspective No account was taken of the central problem of racist societalization i.e. the everyday production and reproduction of race as a social relation doing race supported by broad sections of the population This comprehensive study of Australian racism and the historical white sugar campaign shows that the latter was only able to achieve success because it was embedded in a widespread white Australia culture that found expression in all spheres of life Series Racism Analysis Series A Studies Vol 4 Subject Social History Australian Studies Shakespeare on Screen: Othello Sarah Hatchuel, Nathalie Vienne-Guerrin, 2015-06-30 The first volume in the re-launched series Shakespeare on Screen is devoted to Othello offering up to date coverage of recent screen versions as well as new critical essays on older canonical films An international cast of authors explores not only productions from the USA and UK but also translations adaptations and appropriations in Quebec Italy India Brazil and Mexico The volume takes part in the ceaseless cultural investigation of what Othello says about Shakespeare the past and our present time supported by an invaluable film bibliography Accompanying free online resources include a fuller version of the bibliography and an additional contribution on YouTube versions of Othello This book will be a valuable resource for students scholars and teachers of film studies and Shakespeare studies How Shakespeare Became Colonial Leah S. Marcus, 2017-03-27 In this fascinating book Marcus argues that the colonial context in which Shakespeare was edited and disseminated during the heyday of British empire has left a mark on Shakespeare's texts to the present day Marcus traces important ways in which the colonial enterprise of setting forth the best possible Shakespeare for world consumption has continued to be visible in the recent treatment of Shakespeare's texts today despite our belief that we are global or post colonial in approach Contemporary Dance in South Africa Sarahleigh Castelyn, 2022-11-14 This book explores when and how and to what effect the body in South African contemporary dance protests subverts or represents a site of the struggle against oppressive forces of power It considers how the dancing body is choreographed what meanings

lie behind the movements it makes in space the possible effect of these movements how and why it is costumed and its relationship to its setting and space It examines a selection of contemporary South African dance works including Flatfoot Dance Company's *Transmission Mother to Child* 2005 Siwela Sonke Dance Theatre's *Home* 2003 Musa Hlatshwayo's *Umthombi* 2004 Mlu Zondi's *Silhouette* 2006 and Nelisiwe Xaba's *They Look at Me and That Is All They Think* 2006 Using both critical study of these works and the author's own practice research the book develops an understanding of the body in contemporary dance and its political and social meanings both in the chosen performance and within the broader context of South African society from 2003 2007 This provides a snapshot of the practice and concerns of contemporary dance in just over a decade from the first democratic national elections in 1994 It is through the study of these dance works that this moment in South African history is captured Contemporary dance in South Africa tells the story of South Africa its past present and possible future and is therefore an enticing and evocative historical period to research a dance practice

Race and Nature from Transcendentalism to the Harlem Renaissance P. Outka, 2016-04-30 Drawing on theories of sublimity trauma and ecocriticism this book examines how the often sharp division between European American and African American experiences of the natural world developed in American culture and history and how those natural experiences in turn shaped the construction of race

Race and the Politics of the Exception Utz McKnight, 2013-07-04 The traditional assumption today about race is that it is not political that it has no political content and is a matter of individual beliefs and attitudes In *Race and the Politics of the Exception* Utz McKnight argues that race is in fact political and defines how it functions as a politics in the United States McKnight organizes his book into three sections beginning with a theoretical section about racial politics in the United States Using theorists such as Benjamin Agamben and Schmitt McKnight discusses how the idea of racial communities went from being constituted through the idea of racial sovereignty and a politics of the exception that defined blacks as the internal enemy to being constitutionally defined through the institutions of racial equal opportunity In the second section McKnight further develops his critical race theory by exploring in more detail the social use of race today The election of President Obama has brought the politics of racial equality to a critical point In spite of a very powerful set of political tools to define it as a thing of the past race matters In the final section McKnight engages with important African American fiction from each of the three major periods of racial politics in the US Earlier descriptions of political theory are used throughout these analyses to refine the argument for a new critical politics of race Scholars of political theory identity politics African American studies and American Studies will find this work ground breaking and relevant

At Home and Abroad La Vinia Delois Jennings, 2010-07-27 Featuring new critical essays by scholars from Europe South America and the United States *At Home and Abroad* presents a wide ranging look at how whiteness defined in terms of race or ethnicity forms a category toward which people strive in order to gain power and privilege Collectively these pieces treat global spaces whose nation building and identity formation have turned on biological and genealogical exigencies to

whiten themselves Drawing upon racialized national practices implemented prior to and during the twentieth century each of the essays enlists literature or performance to reflect the sociopolitical imperatives that secured whiteness in the respective locations they study They range from examinations of whiteness in the literature of Appalachia and contemporary Argentinean poetry to an analysis of performances memorializing the colonial experience in Italy and an exploration into the white rap music of Eminem and contemporary multiracial passing As the contributors show literary and performance representations have the power to chronicle histories that reflect the behaviors and lived realities of our selves Whether whiteness in addition to its physical manifestation presents itself as identity symbol racism culture social formation political imposition legal imposition or pathology it has been outed into the visible even in national spaces where the term whiteness has yet to be translated and entered into the official lexicon The ten essays collected here provide powerful insights into where and how the race for biological and genealogical whiteness persists in various geopolitical realms and the ways in which Nordic whites as well as ethnic whites and nonwhites resecure its ascendance La Vinia Delois Jennings is professor of English at the University of Tennessee Knoxville Her recent critical study *Toni Morrison and the Idea of Africa* won the 2008 Toni Morrison Society Prize for Best Single Authored Book on the Nobel laureate and Pulitzer Prize winning author

Colorblind Shakespeare Ayanna Thompson, 2006-09-12 The systematic practice of non traditional or colorblind casting began with Joseph Papp's New York Shakespeare Festival in the 1950s Although colorblind casting has been practiced for half a century now it still inspires vehement controversy and debate This collection of fourteen original essays explores both the production history of colorblind casting in cultural terms and the theoretical implications of this practice for reading Shakespeare in a contemporary context *Inkface* Miles P. Grier, 2023-12-28 In *Inkface* Miles P Grier traces productions of Shakespeare's *Othello* from seventeenth century London to the Metropolitan Opera in twenty first century New York Grier shows how the painted stage Moor and the wife whom he theatrically stains became necessary types reduced to objects of interpretation for a presumed white male audience In an era of booming print production popular urban theater and increasing rates of literacy the metaphor of Black skin as a readable transferable ink became essential to a fraternity of literate white men who by treating an elastic category of marked people as reading material were able to assert authority over interpretation and by extension over the state the family and commerce *Inkface* examines that fraternity's reading of the world as well as the ways in which those excluded attempted to counteract it
