Athena Vintage International:

Athena John Banville, 2012-03-14 From the Booker Prize winning author of *The Sea* comes a mesmerizing novel that is both a literary thriller and a love story as sumptuously perverse as *Lolita*. A strange and dreamlike book Banville has a breathtaking style. *The Boston Globe* *Matters of Telling: The Impulse of the Story* Carlo Comanducci, Alex

Wilkinson, 2018-11-26 In this book multiple authors and perspectives converge on the materiality of storytelling in order to court its potentialities and flesh out its tensions. Reflecting through its methodological multiplicity not only the vast array of discourses and disciplines that concern themselves with the study of narration but also the various and variable subjects of the act of telling, the collective effort of this volume is less to map or track than to amplify the possibilities of contingent situations embodied relations and specific texts in which beyond the tale the telling itself speaks and matters. **In**

Athena's Camp John Arquilla, David Ronfeldt, 1997-10-07 The information revolution which is as much an organizational as a technological revolution is transforming the nature of conflict across the spectrum from open warfare to terrorism crime and even radical social activism. The era of massed field armies is passing because the new information and communications systems are increasing the lethality of quite small units that can call in deadly precise missile fire almost anywhere anytime. In social conflicts the Internet and other media are greatly empowering individuals and small groups to influence the behavior of states. Whether in military or social conflicts all protagonists will soon be developing new doctrines strategies and tactics for swarming their opponents with weapons or words as circumstances require. Preparing for conflict in such a world will require shifting to new forms of organization particularly the versatile hardy all channel network. This shift will prove difficult for states and professional militaries that remain bastions of hierarchy bound to resist institutional redesign. They will make the shift as they realize that information and knowledge are becoming the key elements of power. This implies among other things that Mars the old brute force god of war must give way to Athena the well armed goddess of wisdom. Accepting Athena as the patroness of this information age represents a first step not only for preparing for future conflicts but also for preventing them. John Banville and His Precursors Pietra Palazzolo, Michael Springer, Stephen

Butler, 2019-07-11 Bringing together leading international scholars John Banville and His Precursors explores Booker and Franz Kafka prize winning Irish author John Banville's most significant intellectual influences. The book explores how Banville's novels engage deeply with a wide range of sources from literary figures such as Samuel Beckett Heinrich von Kleist Wallace Stevens Rainer Maria Rilke and Henry James to thinkers such as Freud Heidegger and Blanchot. Reading the full range of Banville's writings from his Booker Prize winning novel *The Sea* to his latest book *Mrs Osmond* John Banville and His Precursors reveals the richness of the author's work. In this way the book also raises questions about the contemporary moment's relationship to a variety of intellectual and cultural traditions Romanticism Modernism existentialism and how the significance of these can be appreciated in new and often surprising ways. **The Persistence of Global Masculinism**

Lucy Nicholas,Christine Agius,2017-11-07 This book examines whether we are witnessing the resilience persistence and adaptation of masculinist discourses and practices at both domestic and international levels in the contemporary global context Beginning with an innovative conceptualisation of masculinism the book draws on interdisciplinary work to analyse its contours and practices across four case studies From the anti feminist backlash that can be found in various men s rights movements and responses to gender based and sexual violence to the masculinist underpinnings of human rights discourse and modes of intervention to protect including drone warfare This interdisciplinary work will appeal to students and scholars of gender studies security and international relations and sociology **Untangling Blackness in Greek Antiquity** Sarah F. Derbew,2022-05-12 A bold and brilliant new treatment of blackness in ancient Greek literature and visual culture as well as modern reception *Multicultural Origins of the Global Economy'* John M. Hobson,2020-12-10 Develops a fresh non Eurocentric analysis of the rise and development of the global economy in the last half millennium *Global Citizenship Education* ,2008-01-01 The essays in this edited collection argue that global citizenship education realistically must be set against the imperfections of our contemporary political realities As a form of education it must actively engage in a critically informed way with a set of complex inherited historical issues that emerge out of a colonial past and the savage globalization which often perpetuates unequal power relations or cause new inequalities The essays in the book explore these issues and the emergent world ideologies of globalism as well as present territorial conflicts ethnic tribal and nationalist rivalries problems of increasing international migration and asylum growing regional imbalances and increasing world inequalities Contributors to this collection each on their own way argues that global citizenship education needs to project new values to reality test and debate the language concepts and theories of global citizenship and the proto world institutions that seek to give expression to nascent aspirations for international forms of social justice and citizen participation in world government Many of the contributors argue that global citizenship education offers the prospect of extending the liberal ideologies of human rights and multiculturalism and of developing a better understanding of forms of post colonialism One thing is sure as the essays presented in this book demonstrate so clearly there can be no one dominant notion of global citizenship education as notions of global citizenship and education are all contested and open to further argument and revision Global citizenship education does not name the moment of global citizenship or even its emergence so much as the hope of a form of order where the rights of the individual and of cultural groups irrespective of race gender ethnicity or creed are observed preserved and protected by all governments in order to become the basis of citizen participation in new global spaces that we might be tempted to call global civil society *The Eurocentric Conception of World Politics* John M. Hobson,2012-03-29 John Hobson claims that throughout its history most international theory has been embedded within various forms of Eurocentrism Rather than producing value free and universalist theories of inter state relations international theory instead provides provincial analyses that celebrate and defend Western civilization as the subject of and ideal normative referent in

world politics Hobson also provides a sympathetic critique of Edward Said's conceptions of Eurocentrism and Orientalism revealing how Eurocentrism takes different forms which can be imperialist or anti imperialist and showing how these have played out in international theory since 1760 The book thus speaks to scholars of international relations and also to all those interested in understanding Eurocentrism in the disciplines of political science political theory political economy international political economy geography cultural and literary studies sociology and not least anthropology

Ghosts John Banville, 2012-03-07 From the Booker Prize winning author of *The Sea* comes a brilliantly haunting novel that forges an unforgettable amalgam of enchantment and menace that suggests both *The Tempest* and his own acclaimed *The Book of Evidence* A surreal and exquisitely lyrical new novel by one of the great stylists writing in English today *The Boston Globe*
