Critical Care Medicine Manual M. H. Weil, P. L. DaLuz, 2012-12-06 During the past twelve years a course on critical care medicine has been sponsored by the Post Graduate Division of the University of Southern California School of Medicine in association with its Center for the Critically Ill. The content of each of the symposia has paralleled the evolution of critical care medicine as a recognized service specialty. The annual program was planned as a teaching session for physicians and allied medical personnel who sought to advance their involvement in this rapidly advancing field. A panel of highly regarded authorities on subjects bearing on critical care medicine, faculty members of the USC School of Medicine and staff members of our own Center for the Critically Ill at the Hollywood Presbyterian Medical Center serve as faculty of these symposia. Although the primary commitment of the organizers to maintain this as a teaching and demonstration session was not abandoned, the number of annual registrants progressively increased from fewer than 100 to more than 1200, gradually outstripping local hotel facilities in central Los Angeles. The symposium for the past two years has been held in the large and attractive Anaheim Convention Center adjacent to Disneyland.

Cardiothoracic Manual for Perioperative Practitioners Dr Bhuvaneswari Krishnamoorthy, 2020-02-03 Cardiothoracic surgery is constantly evolving in many aspects and there are many text books exist to fulfil the gap of new evidences. Most of these books are written for surgeons, anaesthetist and there is a significant deficit in many important areas which are explored in this book. It is aimed for all perioperative practitioners such as surgical care practitioners, surgical cardiothoracic trainees, anaesthetic trainees, anaesthetic practitioners, recovery practitioners, ward advanced nurse practitioners and perfusionists. It is very important for the perioperative practitioner who wants to start their career in cardiothoracic surgery to understand the step by step surgical procedure is vital. Cardiothoracic Manual for Perioperative Practitioners is devoted to delivering comprehensive coverage of all aspects of cardiothoracic surgery with emphasis on the roles and importance of the full theatre team. Details are provided throughout initial theatre set up and surgical instrumentation selection. A step by step walk through of routine surgical procedures, cardiopulmonary bypass guidance, investigations undertaken during the intraoperative period and a detailed background of surgical anatomy is provided. The book also covers essential aspects associated with recovery of the patient and the common pitfalls in surgery and recovery and how these can be avoided. The structure and organisation of the theatre environment, ethical and legal issues, preventive and protective measures and the importance of swab counts are explained succinctly and systematically by experts in this field. The reader will have reliable and complete guidance to provide all the knowledge required to be ready to work in the theatre environment. Each chapter contains important references for further reading and greater in depth study. All chapters are written by an experienced practising surgeon, anaesthetist and practitioners.
