Birds New to Britain and Ireland J.T.R. Sharrock,P. J. Grant,2010-11-30 The 83 species featured in this book in date sequence of discovery had not been recorded in Britain or Ireland before 1946 The original accounts of the sightings published in issues of British Birds between 1947 and 1982 are now reprinted and supplemented with comment by Dr Sharrock on subsequent occurrences and current status In addition Peter Grant provides identification notes drawing attention to points not covered in the original accounts There is also a world distribution map for each species and a line illustration to head each of the accounts At the end of the book a section of plates reproduces 81 first sighting photographs covering 32 of the species in the book

The Historical Atlas of Breeding Birds in Britain and Ireland 1875-1900

Simon Holloway,2010-01-31 The landscape of Britain has been irreversibly changed over the last century Modern agriculture urban expansion industry and transport have all left their mark altering the face of the countryside forever Shifting with the changing scene the fortunes of Britain and Ireland s bird populations have fluctuated dramatically over the years As current farming practices have evolved the natural habitats and breeding patterns of many species have been disrupted Urban and industrial growth has brought with it the pressures of new land use pesticides pollution and human interference The activities of sportsmen collectors and farmers have also taken their toll over the years The new Poyser title The Historical Atlas of Breeding Birds in Britain and Ireland 1875 1900 is a fascinating book resulting form years of meticulous research by the author Simon Holloway who provides an absorbing account of the distribution changes of Britain and Ireland s birds over the last quarter of a century Large colour distribution maps and their accompanying text paint a species by species picture of a period which completely transformed the landscape of this country It is says Natural World magazine a classic case of why did no one write this book before The experienced birder using a knowledge of species requirements can only marvel at what the long vanished landscapes were then like Birdwatch praises Simon Holloway s achievement saying This book brings together so much information from disparate sources and its status maps present such a clear picture of our late Victorian avifauna that it should take its place beside the BTO atlases on the bookshelf While Birdwatching adds If you are interested in the historical side of birds and their populations this book will be an endless source of fascination As with all Poyser publications the attention to detail the lovingly produced illustrations and the sheer breadth of knowledge demonstrated by the autho

Rare Birds in Britain and Ireland J.T.R. Sharrock,E.M Sharrock,2010-11-30 Dr J T R Sharrock is uniquely placed to write about the rare birds of Britain and Ireland He is a member of all three bodies which adjudicate on such records honorary secretary of the British Ornithologists Union s Records Committee and a member of both the British Birds Rarities Committee and the Irish Records Panel He is already the author of a companion book which deals with a selection of the commoner rarities Scarce Migrant Birds in Britain and Ireland In this new much fuller book the enormous task of collation of over 8000 records and their visual display as maps and histograms was carried out by Mrs E M Sharrock The

textual and visual analysis deals with 221 different species Between them the authors present a complete picture of rare birds in Britain and Ireland HOW MANY are seen WHEN do they occur HOW regularly do they come WHERE are they seen There are line drawings of all 221 species by well known bird artists Robert Gillmor P J Grant R A Richardson D I M Wallace and Ian Willis Jacket design by Robert Gillmor **Bird Observatories in Britain and Ireland** Roger Durman,1976 *Bird Observatories of Britain and Ireland* Bird Observatories Council,2010-08-18 A comprehensive survey of the valuable work undertaken by Britain's network of bird observatories with summaries and tables of noteworthy events and much historical background Bird observatories are research stations established mainly for the study of migration particularly by means of ringing There are now 18 scattered around the Britain and Ireland at key points on migration routes on coastal promontories or small islands Part of their attraction is the regular occurrence of rarities that are found each year at these observatories Written by wardens and ringers from each location Bird Observatories of Britain and Ireland is a timely new edition of one of the earliest Poyser titles It includes detailed coverage of the history location habitats and ornithological interest of each observatory including summaries and tables of noteworthy events **The Status of Birds in Britain and Ireland** David Parkin,Alan Knox,2010-01-01 A detailed and up to date assessment of the status and distribution of every species of bird in Britain and Ireland **The Changing Wildlife of Great Britain and Ireland** David L. Hawksworth,2003-06-26 Periodic comprehensive overviews of the status of the diverse organisms that make up wildlife are essential to determining trends threats and future prospects Just over 25 years ago leading authorities on different kinds of wildlife came together to prepare an assessment of their status of a wide range of organisms in Great Britain and Ireland i *The Atlas of Breeding Birds in Britain and Ireland* J.T.R. Sharrock,2010-12-30 The Atlas plots the results of the survey organised by the BTO and the IWC during the years 1968-72 Over 250 maps show the distribution of 218 species This companion volume to The Atlas of Wintering Birds in Britain and Ireland is derived from yearly surveys of breeding birds in Britain and Ireland during 1968-72 organised by the British Trust for Ornithology and the Irish Wildbird Conservancy Each of the 3 862 10 km squares of Britain and Ireland was visited during the five years and the resulting records over 285 000 are summarised in the maps The full page maps plot the known distribution of all but 11 of the 229 breeding species located during the survey period Each map has an accompanying text which describes the species habitat the problems involved in proving breeding the historical background to the species range and any changes in its numbers The probable reasons for these changes are discussed and an attempt made to assess the total number of birds for each species Jacket design by Robert Gillmor **Birds in Scotland** Valerie M. Thom,2010-11-30 The most important work on the birds of Scotland ever published British Birds This comprehensive study and review of the birds in Scotland follows on from where the celebrated two volumes of The Birds of Scotland 1953 by Dr Baxter and Miss Rintoul left off It does more than that however since not only has there been a profound increase in ornithological coverage and data as reflected in the species accounts there have also been great changes in

habitat and environment since the days of Baxter there are also brief summaries of earlier data based on the researches of Baxter Rintoul In all 497 species are dealt with The texts of major species accounts are complemented by 173 distribution maps and many tables of relevant data and there are 129 species drawings by a team of artists under the editorship of Donald Watson who also contributes chapter head pieces and other drawings A section of photographs illustrates the varied habitats typical of Scotland today There are further appendices and an extensive bibliography The book will be of great interest to all birdwatchers in Scotland but of special value too to the many thousands of birdwatching visitors from elsewhere in these islands and from countries abroad The Scottish Ornithologists Club for whom the book is published and all whose records and researches made the author s work possible have reason to be proud of Valerie Thom s achievement

Rare Birds in Britain and Ireland J.N Dymond,P.A Fraser,S.J.M Gantlett,2010-11-30 This trio of rare bird specialists have produced not only a book of great fascination for those who delight in rarities for their own sake but one that offers valuable information on changing patterns of arrival which may indicate changes of status of these birds within their breeding range This book is a successor to two earlier works Scarce Migrant Birds in Britain and Ireland Sharrock 1974 and Rare Birds in Britain and Ireland Sharrock 1976 It unifies both of the earlier books and updates them adding more than 80 species to the previous total The authors have analysed and considered some 45 000 records of scarce and rare birds in Britain and Ireland for the period 1958 85 Extreme rarities outside the period are also listed More than 300 species accounts are now included most of them accompanied by histograms of weekly and seasonal occurrences with maps showing distribution by counties in spring and autumn or at particular times of the year For rarities with twelve or fewer occurrences during the period 1958 85 the place date and other relevant information is given for each record Every species is illustrated by a line drawing more than 150 of them commissioned for this book the remainder being selected from the two earlier works
