

BLACK CHURCHES *AND* LOCAL POLITICS

*Clergy Influence, Organizational
Partnerships, and Civic Empowerment*

Edited by R. Drew Smith and Fredrick C. Harris

Black Churches And Local Politics Clergy Influence Organizational Partnerships And Civic Empowerment

Fredrick C. Harris, Drew R. Smith

Black Churches And Local Politics Clergy Influence Organizational Partnerships And Civic Empowerment:

Black Churches and Local Politics Fredrick C. Harris, Drew R. Smith, 2005-06-30 This book on black churches and urban politics uses case studies from various cities to examine the strategies and tactics of activist clergy and congregations. These case studies illustrate how black activist clergy and congregations negotiate the political terrains of their respective cities. The cases show that the political culture of a city, whether that culture is shaped by machine politics, a legacy of political protest, racial and ethnic factionalism, or a city whose power resides in the mayor's office rather than the city council chamber, can influence the tactics of activist clergy and congregations. These cases also show how strategies and tactics vary across congregations as well as within and across cities. Not only do activist churches emphasize political empowerment or economic development; their tactics to pursue their goals may take different forms. They can form coalitions with other churches and/or political organizations; lobby public officials; use personal appeals to persuade politicians; or mobilize voters for candidates who support the congregation's agenda. By taking stock of the strategies that activist black clergy and congregations adopt and the tactics they use to research their goals, the cases in this book highlight nuances in black clergy and church activism that are captured beyond a single case or a focus on national politics. The three sections of *Black Churches and Local Politics* examine the many ways that black activist clergy and congregations voice their concerns in urban politics. The tactics explored are the use of personal influence by activist ministers; the formation of coalitions with churches and community organizations; and pressure groups that lobby government institutions and leaders on behalf of minority communities.

Black Churches and Local Politics R. Drew Smith, Fredrick C. Harris, 2005-06-22 This book on black churches and urban politics uses case studies from various cities to examine the strategies and tactics of activist clergy and congregations. These case studies illustrate how black activist clergy and congregations negotiate the political terrains of their respective cities. The cases show that the political culture of a city, whether that culture is shaped by machine politics, a legacy of political protest, racial and ethnic factionalism, or a city whose power resides in the mayor's office rather than the city council chamber, can influence the tactics of activist clergy and congregations. These cases also show how strategies and tactics vary across congregations as well as within and across cities. Not only do activist churches emphasize political empowerment or economic development; their tactics to pursue their goals may take different forms. The three sections of *Black Churches and Local Politics* examine the many ways that black activist clergy and congregations voice their concerns in urban politics. The tactics explored are the use of personal influence by activist ministers; the formation of coalitions with

churches and community organizations and pressure groups that lobby government institutions and leaders on behalf of minority communities

Black Churches and Local Politics Fredrick C. Harris, Drew R. Smith, 2005-06-30 This book on black churches and urban politics uses case studies from various cities to examine the strategies and tactics of activist clergy and congregations These case studies illustrate how black activist clergy and congregations negotiate the political terrains of their respective cities The cases show that the political culture of a city whether that culture is shaped by machine politics a legacy of political protest racial and ethnic factionalism or a city whose power resides in the mayor's office rather than the city council chamber can influence the tactics of activist clergy and congregations These cases also show how strategies and tactics vary across congregations as well as within and across cities Not only do activist churches emphasize political empowerment or economic development their tactics to pursue their goals may take different forms They can form coalitions with other churches and or political organizations lobby public officials use personal appeals to persuade politicians or mobilize voters for candidates who support the congregation's agenda By taking stock of the strategies that activist black clergy and congregations adopt and the tactics they use to research their goals the cases in this book highlight nuances in black clergy and church activism that are captured beyond a single case or a focus on national politics The three sections of *Black Churches and Local Politics* examine the many ways that black activist clergy and congregations voice their concerns in urban politics The tactics explored are the use of personal influence by activist ministers the formation of coalitions with churches and community organizations and pressure groups that lobby government institutions and leaders on behalf of minority communities

God and Government in the Ghetto Michael Leo Owens, 2008-11-15 In recent years as government agencies have encouraged faith based organizations to help ensure social welfare many black churches have received grants to provide services to their neighborhoods poorest residents This collaboration activist churches explain is a way of enacting their faith and helping their neighborhoods But as Michael Leo Owens demonstrates in *God and Government in the Ghetto* this alliance also serves as a means for black clergy to reaffirm their political leadership and reposition moral authority in black civil society Drawing on both survey data and fieldwork in New York City Owens reveals that African American churches can use these newly forged connections with public agencies to influence policy and government responsiveness in a way that reaches beyond traditional electoral or protest politics The churches and neighborhoods Owens argues can see a real benefit from that influence but it may come at the expense of less involvement at the grassroots Anyone with a stake in the changing strategies employed by churches as they fight for social justice will find *God and Government in the Ghetto* compelling reading

Religion and Politics in America Allen D. Hertzke, Laura R. Olson, Kevin R. den Dulk, Robert Booth Fowler, 2018-08-06 Religion and politics are never far from the headlines but their relationship remains complex and often confusing This book offers an engaging accessible and balanced treatment of religion in American politics It explores the historical cultural and legal contexts that motivate religious political engagement and assesses the pragmatic and strategic

political realities that religious organizations and people face Incorporating the best and most current scholarship the authors examine the evolving politics of Roman Catholics evangelical and mainline Protestants African American and Latino traditions Jews Muslims and other religious minorities recent immigrants and religious nones and other conventional and not so conventional American religious movements New to the Sixth Edition Covers the 2016 election and assesses the role of religion from Obama to Trump Expands substantially on religion's relationship to gender and sexuality race ethnicity and class and features the role of social media in religious mobilization Adds discussion questions at the end of every chapter to help students gain deeper understanding of the subject Adds a new concluding chapter on the normative issues raised by religious political engagement to stimulate lively discussions *Faith, Politics, and Power* Rebecca Sager, 2010-01-15 During the 2000 presidential campaign George W Bush made faith based social services one of the centerpieces of his domestic agenda These faith based initiatives supporters argued would reduce poverty ease the strain on an overburdened welfare system and prove more effective than government programs Opponents feared rampant proselytizing with government funds Instead these practices created a system in which neither the greatest hopes of its supporters nor the greatest fears of its opponents have been realized The product of five years of in depth research Rebecca Sager's *Faith Politics and Power* offers a systematic examination of where and how these programs were implemented arguing that faith based initiatives strayed from supporters original aim of helping the poor and instead were used as tools to gain political power by the Republican Party and the conservative evangelical movement **Religion and Politics in America** Robert Booth Fowler, 2018-05-04 this book focuses on religion and politics and the dynamic interactions between them It helps to understand the politics of religion in the United States and to appreciate the strategic choices that politicians and religious participants make when they participate in politics *The Black Church Studies Reader* Alton B. Pollard, Carol B. Duncan, 2016-04-29 The Black Church Studies Reader addresses the depth and breadth of Black theological studies from Biblical studies and ethics to homiletics and pastoral care The book examines salient themes of social and religious significance such as gender sexuality race social class health care and public policy While the volume centers around African American experiences and studies it also attends to broader African continental and Diasporan religious contexts The contributors reflect an interdisciplinary blend of Black Church Studies scholars and practitioners from across the country The text seeks to address the following fundamental questions What constitutes Black Church Studies as a discipline or field of study What is the significance of Black Church Studies for theological education What is the relationship between Black Church Studies and the broader academic study of Black religions What is the relationship between Black Church Studies and local congregations as well as other faith based entities The book's search for the answers to these questions is compelling and illuminating **The Oxford Handbook of Religion and American Politics** Corwin E. Smidt, Lyman A. Kellstedt, James L. Guth, 2017 Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a

major focus of research Yet because this important research is not easily accessible to nonspecialists much of the analysis of religion's role in the political arena that we read in the media is greatly oversimplified This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned what remains unsettled due to conflicting research findings and what important questions remain largely unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene

Homophobia in the Black Church

Anthony Stanford, 2013-03-14 This book explains how faith politics and fear contribute to the homophobic mindset within the Black Church and the African American community Homophobia in the Black Church How Faith Politics and Fear Divide the Black Community explores the various reasons for the Black Church's aversion and the general black cultural inflexibility toward homosexuality same sex marriage and acceptance of the LGBT community It connects black cultural resistance toward homosexuality to politics faith and fear follows the trail of faith based funding to the pulpit of black mega churches and spotlights how members of the black clergy have sacrificed black LGBTQ Christians for personal and political advancement The author systematically builds his case linking the reasons blacks are intolerant of deviation from acceptable sexual behavior to the 1960s struggle for racial equality and tying longstanding black sexual mores to present day politics social conservatism and the lure of federal funding to black churches and religious and social organizations He also spotlights specific homophobic black ministers and draws back the curtain on their alliance with White social conservatives and religious and political extremists to reveal an improbable but powerful union

Reviewing **Black Churches And Local Politics Clergy Influence Organizational Partnerships And Civic Empowerment**: Unlocking the Spellbinding Force of Linguistics
