Black Muslim Religion In The Nation Of Islam 1960 1975:

Black Muslim Religion in the Nation of Islam, 1960-1975 Edward E. Curtis IV, 2009-01-05 Elijah Muhammad's Nation of Islam came to America's attention in the 1960s and 1970s as a radical separatist African American social and political group. But the movement was also a religious one. Edward E. Curtis IV offers the first comprehensive examination of the rituals, ethics, theologies, and religious narratives of the Nation of Islam, showing how the movement combined elements of Afro-Eurasian Islamic traditions with African American traditions to create a new form of Islamic faith. Considering everything from bean pies to religious cartoons, clothing styles to prayer rituals, Curtis explains how the practice of Islam in the movement included the disciplining and purifying of the black body, the reorientation of African American historical consciousness toward the Muslim world, an engagement with both mainstream Islamic texts and the prophecies of Elijah Muhammad, and the development of a holistic approach to political, religious, and social liberation. Curtis's analysis pushes beyond essentialist ideas about what it means to be Muslim and offers a view of the importance of local processes in identity formation and the appropriation of Islamic traditions.

Black Muslim Religion in the Nation of Islam, 1960-1975 Edward E. Curtis, 2006 *Black Muslim Religion in the Nation of Islam 1960 1975* *Gullah Geechee Muslims in America* Muhammad Fraser-Rahim, 2024-12-15 Through meticulous research, interviews, and documentation, *Gullah Geechee Muslims in America: Exploring Islamic Identity in the African Diaspora* presents a unique and significant contribution to religious studies, African American studies, and anthropology by shedding light on a previously understudied aspect of the Gullah Geechee community and culture. Previous studies of enslaved African Muslims have claimed that Islam as a conscious practice vanished by the eve of the Civil War. However, Muhammad Fraser-Rahim highlights the continuity of Islamic belief and practice in the Lowcountry. For scholars who have spent decades researching the retention of African culture among the enslaved and their descendants, this book reveals certain challenges and poses new avenues of research.

Black Intellectual Thought in Modern America Brian D. Behnken, Gregory D. Smithers, Simon Wendt, 2017-09-07 Contributions by Tunde Adeleke, Brian D. Behnken, Minkah Makalani, Benita Roth, Gregory D. Smithers, Simon Wendt, and Danielle L. Wiggins. Black intellectualism has been misunderstood by the American public and by scholars for generations. Historically maligned by their peers and by the lay public as inauthentic or illegitimate, black intellectuals have found their work misused, ignored, or discarded. Black intellectuals have also been reductively placed into one or two main categories: they are usually deemed liberal or less frequently as conservative. The contributors to this volume explore several prominent intellectuals from left-leaning leaders such as W. E. B. Du Bois to conservative intellectuals like Thomas Sowell, from well-known black feminists such as Patricia Hill Collins to Marxists like Claudia Jones, to underscore the variety of black intellectual thought in the United States. Contributors also situate the development of the lines of black intellectual thought within the broader history from which these trends emerged. The result gathers essays that offer entry into a host of rich intellectual traditions.

Dilemmas of Authenticity Zaid Adhami, 2025-05-07 The past two decades have witnessed pervasive anxieties in US Muslim communities around a perceived crisis of faith As Zaid Adhami argues in this richly textured ethnography these concerns are fundamentally about the pressures and dilemmas of authenticity what it really means to be a Muslim While discussions about authenticity in Islam typically focus on maintaining tradition and competing claims to true Islam Adhami focuses instead on the powerful idea of being true to one s own self and what it means to have genuine belief Drawing on extensive conversations with American Muslims and careful readings of broader communal discourse Adhami shows that this drive for personal authenticity plays out in complicated ways It can produce deep doubt while also serving as the grounds to affirm tradition It can converge with revivalist modes of piety but it can also prompt emphatic challenges to communal orthodoxies Through vivid storytelling and sensitive analysis Adhami illuminates why religious doubt is often a source of intense anxiety in today s world and how people maintain their faith despite such unsettling uncertainty
