

GENERAL GUIDE

- Press **[MODE]** to change from mode to mode.
- After you perform an operation in any mode, pressing **[MODE]** returns to the Timekeeping Mode.
- In any mode, hold down **[MODE]** for 2 seconds to enter the Dive Time Measurement Mode.

Dive Time Measurement Mode

Hold down
[MODE] for 2
seconds

Timekeeping Mode

TIMEKEEPING MODE

- While in the Timekeeping Mode, press **[MODE]** to illuminate the display for about two seconds. The backlight of this watch employs an electric luminescent (EL) light, which leads to illuminating power after very long term use.
- Frequent use of the backlight shortens the battery life.

To set the time and date

1. Press **[MODE]** while in the Timekeeping Mode. The seconds digits flash on the display because they are selected.
2. Press **[MODE]** to change the selection in the following sequence:

3. While the seconds digits are selected (flashing), press **[MODE]** to reset them to "00". If you press **[MODE]** while the seconds count is in the range of 30 to 59, the seconds are reset to "00" and 1 is added to the minutes. If the seconds count is in the range of 00 to 29, the minutes count is unchanged.
 4. While any digits (hours, minutes) are selected (flashing), press **[MODE]** to increase the number. Holding down **[MODE]** changes the current selection at high speed, where the 12/24-hour setting is selected, press **[MODE]** to switch between the two formats.
 5. After you set the time and date, press **[MODE]** to return to the Timekeeping Mode.
- The day of the week is automatically set in accordance with the date.
 - The date can be set within the range of January 1, 1990 to December 31, 2099.
 - If you do not operate any button for a few minutes while a selection is flashing, the flashing stops and the watch goes back to the Timekeeping Mode automatically.
 - A segment of the graphical display appears every five minutes.

DIVE TIME MEASUREMENT MODE

The Dive Time Measurement Mode lets you measure the total time you spend underwater while diving or snorkeling, and the amount of time spent on the surface (surface interval). This watch also stores one set of diving time data (total dive time and dive start time) into log memory for later recall.

- While in the Dive Time Measurement Mode, press **[MODE]** to illuminate the display for about two seconds.

Precautions

For your own safety, never operate the buttons of the watch while underwater or while on the water's surface. Perform button operations in a safe place after leaving the water.

Before Diving/Snorkeling

- Be sure to check if the battery power is low (check for low light intensity on a dim display). If it is, do not use the watch for diving/snorkeling.
- Make sure that the watch is set to the correct time of day.
- Check the glass, case and band for cracks or chips.
- Make sure that the band is fastened securely around your wrist.

While Diving/Snorkeling

- Always use the "buddy system" when diving — never dive alone.
- Check to make sure that timer operation is being performed properly.
- If one dive when diving/snorkeling near rocks or coral to avoid scratching the watch.

After Diving/Snorkeling

- To avoid corrosion, rinse your watch thoroughly with fresh water to remove salt water, dirt, etc. (When possible, soak the watch in fresh water overnight to make sure that all salt is removed.)

To use the Dive Time Measurement Mode

1. Before diving/snorkeling, switch to the Dive Time Measurement Mode by holding down **[MODE]** for at least two seconds.
 2. To start the dive time measurement operation, press **[MODE]**.
 3. To stop the measurement, hold down **[MODE]** for at least one second (until the watch emits a long beep).
- At this time, timing of the surface interval starts. This timing is performed internally, and it is not indicated on the Dive Time Measurement Mode display. For details on how to view surface interval data, see "To review log data".

4. To resume timing from the dive time shown on the display, press **[MODE]**.
 - You can repeat steps 3 and 4 as many times as you like.
- Important:**
Do not recall log data (to view the surface interval) while this procedure is in progress. If you do, the dive time to that point will be stored into memory and the data will be cleared when you restart the dive time measurement operation.
5. To clear the Dive Time Measurement Mode, stop the measurement operation (step 3, above) and then press **[MODE]**.

To review log data

Log data can be reviewed (recalled) in the Timekeeping Mode.

1. Hold down **[MODE]** for at least two seconds to enter the Timekeeping Mode from the Dive Time Measurement Mode.
2. Hold down **[MODE]** to display the Log Data Display. The Log Data Display remains visible as long as you hold down **[MODE]**. When you release **[MODE]**, the normal Timekeeping Mode display returns.

To clear the log data memory

Log data in memory is automatically replaced by the newest measurement. Use the following operation if you want to manually clear the log data memory.

1. While in the Timekeeping Mode, hold down **[MODE]** to display the Log Data Display.
2. Press **[MODE]** to clear the log data memory. At this time, the display clears so that no data is shown.

STOPWATCH MODE

The Stopwatch Mode lets you measure elapsed time, split times, and lap times. The range of the stopwatch is 23 hours, 59 minutes, 59.99 seconds.

- (a) Elapsed time measurement**
Start → Stop → Re-start → Stop → Clear
- (b) Split time measurement**
Start → Split → Split release → Stop → Clear
- (c) Split time and lap/2nd place times**
Start → Split → Split release → Stop → Split release → Clear
First timer finishes
Second timer finishes
Percent time of last timer
