Asset Building And Low Income Families:

Asset Building and Low Income Families Signe-Mary McKernan, 2008-10-15 Low income families have scant savings to cushion a job loss or illness and can find economic mobility impossible without funds to invest in education homes or businesses And though a lack of resources leaves such families vulnerable income support programs are often closed to those with a bit of savings or even a car Considering welfare to work reforms the increasingly advanced skill demands of the American workforce and our stretched Social Security system such an approach is inadequate to lift families out of poverty Asset based policies allowing or even helping low income families build wealth are an increasingly popular strategy to facilitate financial stability *Asset Building and Low-income Families* Signe-Mary McKernan, Michael Wayne

Sherraden, 2008 **Financial Capability and Asset Building in Vulnerable Households** Margaret Sherraden, Julie Birkenmaier, J. Michael Collins, 2018-04-26 Financial Capability and Asset Building in Vulnerable Households is the first book of its kind It prepares students and practitioners for financial practice This comprehensive text offers knowledge and skills to enable families to improve their financial circumstances and to promote policies and services for household economic security and development **Assets for the Poor** Thomas M. Shapiro, Edward N. Wolff, 2001-05-17 Over the past three decades average household wealth in the United States has declined among all but the richest families with a near 80 percent drop among the nation's poorest families Although the national debate about inequality has focused on income it is wealth the private assets amassed and passed on within families that provides the extra economic cushion needed to move beyond mere day to day survival Assets for the Poor is the first full scale investigation into the importance of family wealth and the need for policies to encourage asset building among the poor Assets for the Poor shows how institutional mechanisms designed to encourage acquisition of capital and property favor middle class and high income families For example the aggregate value of home mortgage tax deductions far outweighs the dollar amount of the subsidies provided by Section 8 rental vouchers and public housing Banking definitions of creditworthiness largely exclude minorities and welfare rules have made it nearly impossible for single mothers to accumulate savings let alone stocks or real estate Due to persistent residential segregation even those minority families who do own homes are often denied equal access to better schools and public services The research in this volume shows that the poor do make use of the assets they have Cash gifts although small in size are frequent within families and often lead to such positive results as homebuying and debt reduction while tangible assets such as tools and cars help increase employment prospects Assets for the Poor examines policies such as Individual Development Account tax subsidies to reward financial savings among the poor and more liberal credit rules to make borrowing easier and less costly The contributors also offer thoughtful advice for bringing the poor into mainstream savings institutions and warn against developing asset building policies at the expense of existing safety net programs Asset building for low income families is a powerful idea that offers hope to families searching for a way out of poverty Assets for

the Poor challenges current thinking regarding poverty reduction policies and proposes a major shift in the way we think about families and how they make a better life A Volume in the Ford Foundation Series on Asset Building [Building Assets for Low-income Families](#) United States.
