Australia 1943 The Liberation Of New Guinea:

Australia 1943 Brendon Nelson, Cambridge University Press, 2013 By January 1943 Australia had emerged from the shadow of war in a strong position The victories in 1942 at Kokoda Guadalcanal Buna Gona and Sanananda had secured the northern coastlines of Papua and Australia Australian forces were now poised for a full scale offensive to liberate New Guinea from the Japanese the largest and most complicated operations in their history Australia 1943 explores the high point of Australia s influence on operations and strategy in the South West Pacific a campaign that has been traditionally overshadowed by the drama of Kokoda It investigates critical operations from January 1943 to April 1944 including Salamaua Lae Nadzab Finschhafen Shaggy Ridge the Markham Valley and the Huon Peninsula Australia 1943 is the first detailed single volume study of Australia s military operations in the Pacific during 1943 Australia s finest hour in the Second World War

Australia 1944-45 Peter J. Dean, 2016 Thoroughly researched and generously illustrated Australia 1944 45 is the compelling final instalment in Peter Dean s Pacific War series **Fighting the People's War** Jonathan Fennell, 2019-01-24 Jonathan Fennell captures for the first time the true wartime experience of the ordinary soldiers from across the empire who made up the British and Commonwealth armies He analyses why the great battles were won and lost and how the men that fought went on to change the world **Tropical Warfare in the Asia-Pacific Region, 1941-45** Kaushik Roy, 2017-10-25

This is the first book to provide a comprehensive overview of the land war during the Second World War in South East Asia and the South and South West Pacific The extensive existing literature focuses on particular armies Japanese British American Australian or Indian and or on particular theatres the Philippines Papua New Guinea Malaya or Burma This book on the contrary argues that warfare in all the theatres was very similar especially the difficulties of the undeveloped terrain and that there was considerable interchange of ideas between the allied armies which enabled the spread of best practice among them The book considers tactics training technology and logistics assesses the changing state of the combat effectiveness of the different armies and traces the course of the war from the Japanese Blitzkrieg of 1941 through the later stalemate and the hard fought Allied fightback Although the book concentrates on ground forces due attention is also given to air forces and amphibious operations One important argument put forward by the author is that the defeat of the Japanese was not inevitable and that it was brought about by chance and considerable tactical ingenuity on the part of US and British imperial forces *Globalization and Papua New Guinea: Ancient Wilderness, Paradise, Introduced Terror and Hell* Falk

Huettmann, 2023-04-26 This book aims to present a reality view for Papua New Guinea based on many years of first hand field work and research accounts It further assesses sustainability in the light of 47 000 years of a self sustained type of civilization without bad global impacts This book contrasts the modern sustainable development failures from the colonial times onwards as promoted by the western world namely Australia the UK EU and the U S as well as Japan and now China in times of globalization Trump ism and royal governance Papua New Guinea is still part of the British Dominion and of the

Antarctic Treaty etc This assessment and book is the first of its kind also employing modern data analysis Landscape Ecology principles patterns and processes telecoupling and Geographic Information Systems GIS with Open Access data focusing on ecological economics marxism socialism and contrasting it with current capitalism and neoliberalism that Papua New Guinea is fully exposed to Throughout the 31 book chapters various aspects are covered how a further insistence on the new Sustainable Development Goals SDGs and so called Development Aid will result in unwanted side effects and perverse outcomes for Papua New Guinea and for the world in times of wider global change and unprecedented man made crisis

The Sea and the Second World War Marcus Faulkner, Alessio Patalano, 2019-12-10 An in depth study of World War II s naval operations Rarely does a collection of essays offer so many new and persuasive assessments Well done Professor David Snead Liberty University The sea shaped the course and conduct of World War II from the first moments of the German invasion of Poland on September 1 1939 to the Japanese surrender on September 2 1945 The impact could be felt far beyond the shoreline as the arms and armies carried across the oceans were ultimately destined to wage war ashore Populations and industries depended on the raw materials and supplies in a war that increasingly became a contest of national will and economic might Ultimately it was the war at sea that linked numerous regional conflicts and theaters of operation into a global war As the war grew in complexity and covered an increasingly larger geographical area the organization of the maritime effort and the impact it had on the formulation of national strategy also evolved This volume illustrates the impact of naval operations on the Second World War by highlighting topics previously neglected in the scholarship In doing so it provides new insights into political strategic administrative and operational aspects of the maritime dimension of the war A fine collection of essays by some of the leading scholars in the field The book addresses comprehensively the vital importance of the sea across a range of theaters during the Second World War through a diverse selection of case studies The examinations and re examinations in this volume will be of interest to both scholars and practitioners Dr Steven Paget University of Portsmouth

Australia's Defence Peter Dean, Brendan Taylor, Stephan Frühling, 2014-07-18 Almost half a century ago the Australian National University s TB Millar penned a seminal book on Australian defence policy in the lead up to the Vietnam War Today

Australia's defence forces are returning from long conflicts overseas while the rise of China and the economic integration in the Indo Pacific presents a complex mix of challenges and opportunities. Drawing inspiration from Millar's original volume *Australia's Defence Towards a New Era* brings together leading experts to examine the domestic and international context of Australia's defence policy, Australian strategy and the size and state of our armed forces. As the country heads towards a new era, this book provides an in-depth overview and key insights into the past, present and future of Australia's defence.

Operation Postern Ian Howie-Willis, 2024-01-03 Japanese troops seized and brutally occupied New Guinea's capital Lae for 18 months until 16 September 1943. That day Australian soldiers retook the town against fierce resistance. Defeated and after suffering huge losses, 8000 Japanese soldiers fled across the formidable 4000 metre mountains behind the town. 2000 died on the nightmare trek. In a groundbreaking publication, independent professional historian Dr Ian Howie Willis unveils the untold story of Operation Postern and its significant impact on the Pacific War. His latest book sheds light on the recapture of Lae, the capital of New Guinea, from Japanese forces on 16 September 1943. Through meticulous research, Dr Howie Willis brings to life the heroic efforts of Australian soldiers, the harrowing experiences of the Japanese retreat and the often overlooked plight of the Papua New Guinean village communities caught in the crossfire. Japanese troops had seized and ruthlessly occupied Lae for 18 months until the fateful day of the Australian soldiers' counteroffensive. Despite fierce resistance, the town was retaken, forcing the Japanese to retreat across treacherous 4000 meter mountains behind the area. Tragically, 2000 Japanese soldiers lost their lives during this nightmarish trek. Referred to as a turning point in the Pacific War, Operation Postern shattered the Japanese belief that they could maintain control over the New Guinea mainland. Their continual retreat paved the way for subsequent successful Allied campaigns in the South West Pacific theatre. However, victory came at a high cost, with over 2000 casualties within a fortnight for the Allies, while Japanese losses exceeded that number nearly fourfold. The exact toll on the Papua New Guinean village people remains unknown but undoubtedly significant. Dr Howie Willis challenges previous military histories that have marginalized the Papua New Guineans, highlighting their essential role as the third party to the conflict. By focusing on the village communities, he illuminates the horrific impact of the war on their lands and lives, offering a comprehensive and inclusive narrative. Operation Postern provides readers with an opportunity to revisit and reinterpret this crucial battle that shaped the course of history. Dr Howie Willis' extensive knowledge and meticulous attention to detail make this book a valuable contribution to the understanding of the Pacific War.

Australia's American Alliance Peter Dean, Stephan Frühling, Brendan Taylor, 2016-11-14 This book is specifically designed as a companion volume to *Australia's Defence Towards a New Era*. The Australia United States Alliance has been critical to Australian foreign and defence policy since the ANZUS Treaty was signed in 1951. For 63 years it has been an enduring feature of Australian defence planning, yet the contemporary alliance is arguably in one of the more important phases of reinterpretation in its long history. While the Alliance, by its very nature, is a bi-lateral relationship, this

book will therefore specifically focus on Australian perspectives and policy choices while providing context on the role of the United States in the Asia Pacific and its position as a global power
