Australia Tax Guide 2013 And And Kpmg:

Redesigning Petroleum Taxation Emre Üşenmez, 2018-10-15 Since its inception some 40 years ago petroleum specific taxation in the UK has been subject to numerous modifications. Often these modifications were brought into place not only to sufficiently incentivise the investors but also to capture a fair share for the government. However it is evident from the frequency of changes that finding the right balance between these two aims is no easy matter. Such a balance and the consequent fiscal stability is necessary for the long term relationship between the parties to endure to their mutual benefit. Still it does not take much for one or other party to feel that they are out of balance. As a consequence one party feels that the other party is taking an undue proportion of the value generated and that they are losing out. Yet achieving that balance and fiscal stability is possible. To understand this possibility this book first clarifies what is meant by sufficient incentivisation and fair share before developing a new fiscal system that manages this balance and stability. Such clarification yields objective criteria against which to assess not only the existing regime but also the newly proposed regime. This approach is further complemented by the critical analysis of the fiscal legislative framework and the evaluation of the legal positions of specific contractual elements and mechanisms found within that framework. This latter analysis is important in order to reduce the legal uncertainty such elements may create which can otherwise lead to further reactive amendments and revisions to the fiscal regime in the future.

International Taxation of Manufacturing and Distribution John Abrahamson, 2016-02-18 The most thorough treatment of its subject available this book introduces and analyses the international tax issues relating to international manufacturing and distribution activities extending from the tax regime in the country where the manufacturing activities are located through to regional purchase and sales companies to the taxation of local country sales companies. The analysis includes the domestic tax laws relating to manufacturing and distribution company profits as well as international tax issues relating to income flows and the payment of dividends. Among the topics and issues analysed in depth are the following: foreign tax credits, taxation in the digital economy, tax incentives, intellectual property, group treasury companies, mergers and acquisitions, leasing, derivatives, controlled foreign corporation provisions, VAT and customs tariffs, free trade agreements and customs unions, transfer pricing, role of tax treaties, hedging, related accounting issues, deferred tax assets and liabilities, tax risk management, supply chain management, depreciation allowances and carry forward tax losses. The book includes descriptions of 21 country tax systems and ten detailed case studies applying

the analysis to specific examples Detailed up to date attention is paid to the OECD Action Plan on Base Erosion and Profit Shifting BEPS and other measures against tax avoidance As a full scale commentary and analysis of international taxation issues for multinational manufacturing groups including in depth consideration of corporate structures tax treaties transfer pricing and current developments this book is without peer It will prove of inestimable value to all accountants lawyers economists financial managers and government officials working in international trade environments The Intellectual Property Holding Company Jeffrey A. Maine,Xuan-Thao Nguyen,2017-12-07 Many companies that have become household names have avoided billions in taxes by parking their valuable intellectual property assets in holding companies located in tax favored jurisdictions In the United States for example many domestic companies have moved their IP to tax favored states such as Delaware or Nevada while multinational companies have done the same by setting up foreign subsidiaries in Ireland Singapore Switzerland and the Netherlands In this illuminating work tax scholar Jeffrey A Maine teams up with IP expert Xuan Thao Nguyen to explain how the use of these IP holding companies has become economically unjustified and socially unacceptable and how numerous calls for change have been made This book should be read by anyone interested in how corporations including Gore Tex Victoria s Secret Sherwin Williams Toys R Us Apple Microsoft and Uber have avoided tax liability with IP holding companies and how different constituencies are working to stop them **VAT and Financial Services** Robert F. van Brederode,Richard Krever,2017-03-06 This book explains the theoretical and policy issues associated with the taxation of financial services and includes a jurisdictional overview that illustrates alternative policy choices and the legal consequences of those choices The book addresses the question how can financial services in an increasingly globalized market best be taxed through VAT while avoiding economic distortions It supports the discussion of the key practical problems that have arisen from the particular complexity of the application of VAT to financial services and allows for the evaluation of best practice by comparing the major current reform models now being implemented *The World Guide to Sustainable Enterprise* Wayne Visser,2017-09-08 The World Guide to Sustainable Enterprise is the first comprehensive global compendium that clearly describes the national approaches to sustainable enterprise Through a systematic review of each country this quick to access reference guide showcases the similarities and differences in each region Every country profile includes key information about the relevant history country specific issues trends research and the leading organizations operating in the field as well as best practice case studies The guide comprises four volumes each dedicated to a specific region of the world In a world where organizations are working increasingly across national and regional boundaries and research takes a joined up and international approach this book is an essential guide for practitioners and researchers in the disciplines of business sustainability social enterprise and corporate responsibility The first of its kind this reference book provides the reader with a unique insight into what is the current state of play in each country Each edited volume provides expert contributions from around the world the contributors have been selected on the basis of their knowledge of the
