Buses, Trolleys & Trams Charles Stuart Dunbar,1967 Chicago Trolleys David Sadowski,2017 Chicago's extensive transit system first started in 1859 when horsecars ran on rails in city streets Cable cars and electric streetcars came next Where new trolley car lines were built people businesses and neighborhoods followed Chicago quickly became a world class city At its peak Chicago had over 3 000 streetcars and 1 000 miles of track the largest such system in the world By the 1930s there were also streamlined trolleys and trolley buses on rubber tires Some parts of Chicago's famous L system also used trolley wire instead of a third rail Trolley cars once took people from the Loop to such faraway places as Aurora Elgin Milwaukee and South Bend A few still run today **Metropolitan Area Transit Plan, Bus/trolley System, Seattle and King County** ,1972 **Trolley Buses Around the World** William A. Luke,Linda Metler,2006-11-09 For more than a century trolley buses have been providing transportation in towns and cities throughout the world The trolley bus offered several advantages over other vehicles primarily quiet operation quick acceleration from a standing start hill climbing ability and a long life span During the 1950s and 1960s many trolley bus systems were abandoned The oil crisis of the 1970s marked a turning point and the number of trolley bus systems in the world has risen steadily since Take a trip around the world to see the various styles and systems of trolley buses This Photo Gallery includes many past and present trolley bus systems from North South America Europe Russia Asia and Africa You'll learn the differences in equipment built over time who the main manufacturers of Trolley Buses were in these countries and much more *Baltimore's Streetcars and Buses* Gary Helton,2008 In the 1850s Baltimore's 170 000 residents had few options when it came to getting around town Before the decade's end however the omnibus an urban version of the stagecoach emerged as Baltimore's first mass transit vehicle Horsecars followed then cable cars and ultimately electrically powered streetcars Recognizing the need for cohesion the city's myriad transit providers merged into a single operator United Railways and Electric Company incorporated in 1899 faced the unenviable task of integrating routes being served by inadequate incompatible and often obsolete equipment Over the next seven decades privately run mass transit in Baltimore survived bankruptcy a name change two world wars the proliferation of private automobiles a takeover by out of town interests and a plethora of new vehicles Arguably a unified system of privately operated mass transit was no closer to being a reality in 1970 when it reached the end of the line and was taken over by the state McKinney Avenue Trolleys Jim Cumbie,Phillip E. Cobb,Judy Smith Hearst,2011 Streetcar lines grew and prospered in Dallas from 1872 until the 1920s Automobile competition siphoned many of their riders away but ridership soared again during World War II After the war the trolleys entered an era of gradual attrition and they were abandoned by 1956 Amazingly in 1989 the nonprofit McKinney Avenue Transit Authority MATA returned restored vintage trolley cars to the city in the Uptown neighborhood near downtown MATA evolved from a tourist attraction into a true transit company and became the M Line Since then the area has experienced rapid growth and is now home to midrise office

buildings and upscale apartments Trolley Buses William Luke, 2001-11-24 Trolley buses first began operation in the United States around the turn of the century Today five cities in the U S and two in Canada use these mass transit vehicles This collection depicts a variety of the trolley buses from dozens of the 72 cities that have operated them over the last century Each photo is accompanied by a descriptive caption detailing the vehicles manufacturer and technical specifications
