An Introduction to Young Children With Delays and Disabilities Richard M. Gargiulo,Jennifer L. Kilgo,2024-07-29 *An Introduction to Young Children With Delays and Disabilities* Birth Through Age Eight introduces readers to educational policies services and practices for future educators serving young children birth

through age eight with delays and disabilities in early intervention early childhood special education EI ECSE Thoughtfully and comprehensively addressing the needs of young children and their families authors Richard M Gargiulo and Jennifer L Kilgo offer interventions and instructional techniques that provide students with a broad understanding of important theoretical and philosophical foundations including evidence based decision making cultural and linguistic responsiveness and appropriate instruction and interventions in classroom settings and beyond The Sixth Edition has been thoroughly updated to incorporate the Initial Practice Based Professional Preparation Standards for Early Interventionists Early Childhood Special Educators developed by the Division for Early Childhood DEC and Council for Exceptional Children CEC in 2020 as well as the DEC Recommended Practices *Early Childhood Education* Petr G. Grotewell, Yanus R. Burton, 2008 This book focuses on early childhood education which spans the human life from birth to age 8 Infants and toddlers experience life more holistically than any other age group Social emotional cognitive language and physical lessons are not learned separately by very young children Adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention Although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver Both research in the field and early childhood educators view the parents as an integral part of the early childhood education process Early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent Other terms that is often used interchangeably with early childhood education are early childhood learning early care and early education Much of the first two years of life are spent in the creation of a child s first sense of self or the building of a first identity Because this is a crucial part of children s makeup how they first see themselves how they think they should function how they expect others to function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy If care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience
