Violence and Desire in Brazilian Lesbian Relationships Andrea Stevenson Allen, 2016-04-08 In *Violence and Desire in Brazilian Lesbian Relationships* Allen examines the lives of Brazilian women in same sex relationships This examination contributes to interdisciplinary discussions of female same sex sexuality violence race and citizenship Using fifteen months of ethnographic fieldwork primarily with Afro Brazilian women in the city of Salvador da Bahia Allen argues that Brazilian lesbian women reject Brazilian cultural norms that encourage male domination and female submission through their engagement in romantic relationships with each other At the same time Allen claims lesbian women also reproduce Brazilian cultural ideals that associate passion intensity and power with physical dominance through their engagement in infidelity and intimate partner violence The book demonstrates that lesbian women are nonetheless marginalized as Brazilian citizens through widespread social and political invisibility despite these apparent displays of masculinized power *Researching Non-Heterosexual Sexualities* Constantinos N. Phellas, 2016-04-22 After widespread neglect over many years the study of human sexuality has recently come to the forefront of many of the most important debates in contemporary society and culture This book addresses seriously the issue of how to improve the methodological basis of research into non heterosexual sexualities exploring the key question of what different methodological and theoretical uses of intersectionality contribute to our understandings of non heterosexual sexualities Bringing together research from the UK USA Europe and Australasia this innovative collection rethinks traditional methodologies creating new epistemologies and applying new approaches whilst critically examining key issues including communities identities relationships sexualities homosexual parenthood fostering civil marriage and politics As such it will be of interest to researchers scholars and students across the social sciences and health professionals

Understanding Global Sexualities Peter Aggleton, Paul Boyce, Henrietta L Moore, Richard Parker, 2012-07-26 Over the course of the past thirty years there has been an explosion of work on sexuality both conceptually and methodologically From a relatively limited specialist field the study of sexuality has expanded across a wide range of social sciences Yet as the field has grown it has become apparent that a number of leading edge critical issues remain This theory building book explores some of the areas in which there is major and continuing debate for example about the relationship between sexuality and gender about the nature and status of heterosexuality about hetero and homo normativity about the influence and intersection of class race age and other factors in sexual trajectories identities and lifestyles and about how best to understand the new forms of sexuality that are emerging in both rich world and developing world contexts With contributions from leading and new scholars and activists from across the globe this book highlights tensions or flash points in contemporary debate and offers some innovative ways forward in terms of thinking about sexuality both theoretically and with respect to policy and programme development An extended essay by Henrietta Moore introduces

the volume and an afterword by Jeffrey Weeks offers pointers for the future The contributors bring together a range of experiences and a variety of disciplinary perspectives in engaging with three key themes of sexual subjectivity and global transformations sexualities in practice and advancing new thinking on sexuality in policy and programmatic contexts It is of interest to students researchers and activists in sexuality sexual health and gender studies especially those working from public health sociological and anthropological perspectives

Culture, Society and Sexuality Richard Parker, Peter Aggleton, 2007-01-24 This new and revised edition of Culture Society and Sexuality brings together and makes accessible a broad and international selection of readings to provide insights into the social cultural political and economic dimensions of sexuality and relationships and emerging discourses around sexual and reproductive rights Clearly structured and presented the book makes an extremely useful reference for students and researchers Section one focuses on the social and cultural construction of sexuality as an emerging field of inquiry over the course of recent decades and examines some of the most important theoretical insights and areas of investigation that have emerged as this field has developed Section two links research on the construction of sexuality to a growing body of work on gender and sexuality in relation to a wide range of practical issues and contemporary social policy debates It is an essential reader not only for students and researchers in these areas but also for activists health workers and service providers who daily confront practical and policy issues related to sexuality sexual health and sexual rights

Queering and Querying the Paradise of Paradox Steven F.

Butterman, 2021-06-02 This book provides readers with a study of the characteristics that make life unique for sexual minorities in Brazil while also viewing Brazil in relation to global LGBT sociopolitical movements It critically assesses the complex relationships between the visual arts and political activism carefully analyzing artistic cinematic and photographic representations of LGBTQ identities Brazil provides a useful case to example with the cultivation of ambiguity in contemporary reconstructions of queer life In this book the author conducts the first comprehensive discourse analysis of the dynamics and features of the largest LGBT Pride Parade in the world This problematizes and analyzes the relationship between burgeoning critical socio political movements and institutions and the language and new media discourses used to configure and conceptualize them The aim of this project is to create a theoretical scholarly framework promoting linkages between political activism and academic scholarship and by using discourse analysis the intricacies of terminology Brazilian sexual minorities adopt and adapt illustrating the development of LGBTQ identities through performative language use

Violent Conversion Linda van de Kamp, 2016 Examines Pentecostal conversion as a force of change revealing new insights into its dominant role in global Christianity today There has been an extraordinary growth in Pentecostalism in Africa with Brazilian Pentecostals establishing new transnational Christian connections initiating widespread changes not only in religious practice but in society This book describes its rise in Maputo capital of Mozambique and the sometimes dramatic impact of Pentecostalism on women Here large numbers of urban women are taking advantage of the opportunities

Pentecostalism offers to overcome restrictions at home pioneer new life spaces and change their lives through the power of the Holy Spirit Yet conversion can also mean a violent rupturing with tradition with family and with social networks As the pastors encourage women to cut their ties with the past including ancestral spirits they come to see their kin and husbands as imbued with evil powers and many leave their families Conquering spheres that used to be forbidden to them they often live alone as unmarried women sometimes earning more than men of a similar age They are also expected to donate huge sums to the churches often money that they can ill afford bringing new hardships Linda van de Kamp is Assistant Professor in the Department of Sociology University of Amsterdam The Netherlands

Out in the Country Mary L. Gray, 2009-08 We've become accustomed to the wisdom of the ancient Greeks being trotted out by conservatives in the name of timeless virtues At the same time critics have charged that multiculturalists and their ilk have hopelessly corrupted the study of antiquity itself and that the teaching of Classics is dead Trojan Horses is Page duBois's answer to those who have appropriated material from antiquity in the service of a conservative political agenda among them Camille Paglia Allan Bloom and William Bennett She challenges cultural conservatives appeal to the authority of the classics by arguing that their presentation of ancient Greece is simplistic ahistorical and irreparably distorted by their politics As well as constructing a devastating critique of these pundits Trojan Horses seeks to present a more complex and more accurate view of ancient Greek politics sex and religion with a Classics primer She eloquently recounts the tales of Daedalus and Artemis for example conveying their complexity and passion while also unearthing actions and beliefs that do not square so easily with today's family values As duBois writes Like Bennett I think we should study the past but not to find nuggets of eternal wisdom Rather we can comprehend in our history a fuller range of human possibilities of beginnings of error and of difference In these fleet chapters duBois offers readers a view of the ancient Greeks that is more nuanced more subtle more layered and in every way more historical than the portrait other writers of whatever stripe want to popularize and see displayed in our classrooms Sharp timely and engaging Trojan Horses portrays the richness of ancient Greek culture while riding in to rescue the Greeks from the new barbarians

Reasoning Against Madness Manuella Meyer, 2017 Examines the emergence of Brazilian psychiatry during a period of national regeneration demonstrating how sociopolitical negotiations can shape psychiatric professionalization Reasoning against Madness Psychiatry and the State in Rio de Janeiro 1830-1944 examines the emergence of Brazilian psychiatry looking at how its practitioners fashioned themselves as the key architects in the project of national regeneration The book's narrative involves a cast of varied characters in an unstable context psychiatrists Catholic representatives spiritist leaders state officials and the mentally ill all caught in the shifting landscape of modern state formation Manuella Meyer investigates the key junctures at which psychiatrists sought to establish their authority and the ways in which their adversaries challenged this authority These moments serve as productive points from which to explore the moral and political economies of mental health demonstrating how sociopolitical negotiations shape psychiatric professionalization Meyer argues that the

gradual adoption of punitive configurations of insanity helped sanction socioeconomic and political inequalities during a time of rapid socioeconomic political and cultural transformation Manuella Meyer is Associate Professor of History at the University of Richmond National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1991
