

BODIES AND SOULS

THE CENTURY PROJECT

Photography by
FRANK CORDELLE

Foreword by Naomi Weisshenker, M.D.

Bodies And Souls The Century Project

SA Dillow

Bodies And Souls The Century Project:

Bodies and Souls Frank Cordelle, 2006 This book presents a chronological series of nude photographic portraits of more than 90 diverse girls and women of many ages shapes sizes and conditions plus their personal statements about their bodies and experiences These are often highly personal and intensely moving

The Purple Island and Anatomy in Early Seventeenth-century Literature, Philosophy, and Theology Peter Mitchell, 2007 Sets out to reconstruct and analyze the rationality of Phineas Fletcher's use of figurality in *The Purple Island* 1633 a poetic allegory of human anatomy This book demonstrates that the analogies and metaphors of literary works share coherence and consistency with anatomy textbooks

Russian Philosophy in the Twenty-First Century Mikhail Sergeev, Alexander N. Chumakov, Mary Theis, 2020-11-23 Russian Philosophy in the Twenty First Century An Anthology provides the English speaking world with access to post Soviet philosophic thought in Russia for the first time The Anthology presents the fundamental range of contemporary philosophical problems in the works of prominent Russian thinkers In contrast to the single mindedness of Soviet era philosophers and the bias toward Orthodox Christianity of migr philosophers it offers to its readers the authors plurality of different positions in widely diverse texts Here one finds strictly academic philosophical works and those in an applied pragmatic format secular and religious that are dedicated to complex social and political matters to pressing cultural topics or insights into international terrorism as well as to contemporary science and global challenges

Balancing the self Mark Jackson, Martin D. Moore, 2020-03-05 This electronic version has been made available under a Creative Commons BY NC ND open access license Many health environmental and social challenges across the globe from diabetes to climate change are regularly discussed in terms of imbalances in biological ecological and social systems Yet as contributions to this collection demonstrate while the pressures of modernity have long been held to be pathogenic strategies for addressing modern excesses and deficiencies of bodies and minds have frequently focused on the agency of the individual self knowledge and individual choices This volume explores how concepts of balance have been central to modern politics medicine and society analysing the diverse ways in which balanced and unbalanced selfhoods have been subject to construction intervention and challenge across the long twentieth century Through original chapters on subjects as varied as obesity control fatigue and the regulation of work and the physiology of exploration in extreme conditions *Balancing the self* explores how the mechanisms and meanings of balance have been framed historically Together contributions examine the positive narratives that have been attached to the ideals and practices of self help the diverse agencies historically involved in cultivating new balanced selves and the extent to which rhetorics of empowerment and responsibility have been used for a variety of purposes from disciplining bodies to cutting social security With contributions from leading and emerging scholars such as Dorothy Porter Alex Mold Vanessa Heggie Chris Millard and Natasha Feiner *Balancing the self* generates new insights into emerging fields of health governance subjectivity and balance

Ordering the World in the Eighteenth Century Frank

O'Gorman, Diana Donald, 2005-12-14 The Eighteenth century is often represented applying Tom Paine's phrase as The Age of Reason an age when progressive ideals triumphed over autocracy and obscurantism and when notions of order and balance shaped consciousness in every sphere of human knowledge Yet the debates which surrounded the development of Eighteenth century thought were always open to troubling doubts Was nature itself truly an ordered entity as Newton had argued or was it a mass of chaotic randomly moving atoms as some materialist thinkers believed This book explores the tensions and conflicts in these debates through a series of interdisciplinary essays from leading international scholars each challenging the idea that the Eighteenth century was an age of order

Epic Performances from the Middle Ages into the Twenty-First Century Fiona Macintosh, Justine McConnell, Stephen Harrison, Claire Kenward, 2018-11-01 Greek and Roman epic poetry has always provided creative artists in the modern world with a rich storehouse of themes Tim Supple and Simon Reade's 1999 stage adaptation of Ted Hughes Tales from Ovid for the RSC heralded a new lease of life for receptions of the genre and it now routinely provides raw material for the performance repertoire of both major cultural institutions and emergent experimental theatre companies This volume represents the first systematic attempt to chart the afterlife of epic in modern performance traditions with chapters covering not only a significant chronological span but also ranging widely across both place and genre analysing lyric film dance and opera from Europe to Asia and the Americas What emerges most clearly is how anxieties about the ability to write epic in the early modern world together with the ancient precedent of Greek tragedy's reworking of epic material explain its migration to the theatre This move though was not without problems as epic encountered the barriers imposed by neo classicists who sought to restrict serious theatre to a narrowly defined reality that precluded its broad sweeps across time and place In many instances in recent years the fact that the Homeric epics were composed orally has rendered reinvention not only legitimate but also deeply appropriate opening up a range of forms and traditions within which epic themes and structures may be explored Drawing on the expertise of specialists from the fields of classical studies English and comparative literature modern languages music dance and theatre and performance studies as well as from practitioners within the creative industries the volume is able to offer an unprecedented modern and dynamic study of epic content and form across myriad diverse performance arenas

The Emergence of Man Into the 21st Century Patricia L. Munhall, Ed Madden, Virginia Macken Fitzsimons, 2002 This work offers writings on men's experiences as boys fathers and sons and reflections on relationships gender sexuality race violence loss careers health and the search for meaning The authors who contributed to this work speak to us in a frank and poignant way about the male experience helping us embrace our differences question out presuppositions and understand the diverse meanings of our experiences

The Good Body William M. Etter, 2010-01-08 The Good Body Normalizing Visions in Nineteenth Century American Literature and Culture 1836-1867 examines literary and cultural representations of so called normal and abnormal bodies in the antebellum and Civil War era United States and the ways in which these representations operated as a means of

justifying critiquing and problematizing prominent concerns of the period the relationship between the health of American citizens and national progress Western expansion debates over slavery the threatened dissolution of the Union in the Civil War and the legitimation of the post war reunified nation Considering a wide range of sources classic works of non fiction fiction and poetry health reform textbooks proslavery documents photographs of Civil War veterans and Civil War medical records of the federal government this study demonstrates that American literature of this period typically imagined real and fictional bodies as healthy aesthetically pleasing and symbolically coherent in relation to other bodies imagined as deviating from these norms to preserve existing political and social orders but also at times to challenge the hegemonic power of US institutions In addition to the literary material considered central in this book are critical approaches to history and disability studies which illuminate the construction of physical normality and contribute to recent scholarly attempts to assess the significance of physical differences in the literature and culture of the United States

1973 Herbert W. Mason, Ronald. L. Nettle, Jacques Waardenburg, 2021-06-21 No detailed description available for 1973 Nineteenth Century and After ,1913
