Hamden,2018-11-20 The **Psychology of Terrorists** examines the personality profile of the individual and categorizes the psychology of terrorists into four distinct profiles which are outlined and analyzed in detail There are many books that cover social psychology and political violence and aggression but few establish the mind set of the terrorist as an individual This includes taking into account personal experiences and religious or political ideology for the purposes of understanding conceptual and tactical objectives and profiling terrorists to counter terrorist threats Dr Raymond Hamden presents a unique look at terrorists as individuals with personal motives as well as those of principle The book presents an analysis of terrorists without prejudice or bias for any political religious nationality creed or race Too many times the world see experts focus on issues that are based on their own predispositions or partialities Although there is criticism on the reliability of profiling this research demonstrates validity and reliability It is vital to understand terrorist motivations and this can only be achieved by knowing the terrorists psychological character looking at the individual terrorist taking into account particular experiences psychological makeup background and fundamentalist ideology The **Psychology of Terrorists Profiling and CounterAction** will be a welcomed addition to psychologists terrorism researchers criminal profilers investigators and intelligence professionals counter and anti terrorism experts as well as military security and law enforcement professionals tasked with protecting individuals from the various acts of terrorism domestically and globally
