Australia's War On Terror Discourse:

Australia's 'war on terror' Discourse Kathleen Gleeson, 2016-04-08 Too often existing literature has conflated the discourses that enabled the War on Terror ignoring the contextual specificities of the states that make up the Coalition of the Willing Australia's war on terror Discourse fills this gap by providing a full and sustained critical analysis of Australian foreign policy discourse along with the theoretical synthesis for a specific model of critical discourse analysis of the subject The language of then Prime Minister Howard is the primary focus of the book but attention is also paid to the language of key ministers political opponents and other prominent actors The voices of those who challenged the dominant discourse are also considered to shed light on the ways in which discourses can be destabilised Kathleen Gleeson shows how Howard successfully invoked narratives of identity and sovereignty that resonated with his audience and promoted his reworked narrative of Australia whilst facing dissent from many actors who voiced their opposition most successfully when they capitalised on inconsistencies within the discourse

The Oldest Trick in the Book Ben M. Debney, 2020-07-03 This book investigates the normalisation of blame shifting within ideological discourse as a broad feature of history working from Churchill's truism that history is written by the victors To that end it explores historical episodes of political persecution carried out under cover of moral panic highlighting the process of Othering common to each and theorising a historical model of panic driven scapegoating from the results Building this model from case studies in witch panic communist panic and terrorist panic respectively *The Oldest Trick in the Book* builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim On this basis it argues that the periodic construction of bogeymen or folk demons is a useful device for enabling the kind of victim playing and victim blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically panic driven scapegoating retains great ongoing value to the privileged and powerful and thus conspicuously remains an ongoing feature of world politics
