Automated Man Anselm Anyoha,2012-07 To what extent are you in control of your thoughts and actions Your heart beats willy nilly your gut digests food regardless of your will and your kidneys filtrate your body waste whether you like it or not If all this is true do humans have control of their thoughts Are we the masters of our own destinies If you look like your parents walk like them and possess their tone of voice did you also inherit ancestral thoughts Is there really a beginning and will there ever be an end More than 60% of the human body is composed of water and close to 90% of human body chemicals are recyclable elements Is man s life just a tiny wheel in the mega wheel of the cycle of existence Humans are able to gyrate with sound wind and light feel and empathize with other organism s and one another s pain not due to any inherent Godliness but more fundamentally because of common ancestral origin and evolutionary connections *How Broccoli-Head Lost*
