Blogging Profits Marc Pierce, 2015-11-04 LET ME HELP YOU MAKE MONEY BLOGGING Starting a blog is the first introduction into making money online for many. However, people believe that making money from a blog is hard, yet that couldn't be further from the truth. Most blogging information on the web will provide you with outdated information that might be fun but not very profitable. When I first started blogging, I tried all of these tactics and soon learned that they were horrible for actually making a profit. At that point, I sought out the best information I could find and paid thousands of dollars studying what makes blogs successful and what doesn't. After years of studying, I started implementing my own strategies and before I knew it, I had an amazingly profitable blog. I have been making money from various blogs ever since and will show you 45 Proven tactics that will make your blog profitable that will only cost you 5 or less. In this book, you will learn how to predict the profitability of your blog from the first day you start it, how to build a loyal following, how to create multiple flows of income from one blog, how to make your blog post go viral overnight. Best Tips for High Profit Day Trading J.R. Christopher, Best Tips for High Profit Day Trading is for all beginning aspiring investors and traders who are just getting their head around doing the day trading and swing trading business. Everyone has their own ideas of what they think day trading and swing trading are and what it can do for them. Best Tips for High Profit Day Trading is for people who want to start their own business and become investors and traders in today's financial markets but have zero experience and are looking for the best quality information to get them started. Best Tips for High Profit Day Trading is for beginners and will detail many of the things that a brand new trader must learn not to do before they can become consistently profitable in the live markets. You've heard the saying just say no to drugs, just say no to day trading, and you and your account will be waaaaay ahead of the game to start off. Don't say I didn't warn you. OK, continue with your insanity and read this entire book to give yourself a fighting chance. Many of the things I tell brand new investors and traders in all my books may sound like I am a broken record and some things you read may sound repetitive. I do that for a specific reason because much of what trading is about is doing those same actions over and over again repetitively to make money the same way every day. It is the only way professional traders do it and how they develop their edge to win in the live markets against the best market participants in the world. Trading is challenging for most people because they simply don't have the tools or confidence to be successful. Best Tips for High Profit Day Trading is important for beginners because it tells it like it is and gives an inside look at the markets, giving you the reality on what the market is really like, the way they are really run, and tells you who runs them. My hope from Best Tips for High Profit Day Trading is that you understand how important it is to have a competitive edge when putting your hard-earned money at risk in the markets. Each day the wealth from trader accounts is transferred from those without an edge into the accounts of those who have
