Blonde Eckbert Runenberg Ludwig Tieck:

Ludwig Tieck Dwight Klett, 2020-02-04 When originally published in 1993 this was the first bibliography of the secondary literature on Tieck Given as much secondary literature surrounding Tieck's life and works has been generated outside of his native Germany as within this bibliography focuses particularly on his life and work from an international perspective In order to make the information surrounding Tieck accessible the book provides a detailed table of contents with corresponding text divisions rather than a subject index It therefore highlights Tieck's achievements in their various national contexts so that not only students of German can get an accurate feel for Tieck's versatility and range

"Language and Dead Signs" in Ludwig Tieck's Prose Fiction William Crisman, 1996 Critical account of the works of Ludwig Tieck the German Romantic writer from a linguistic viewpoint Although twentieth century literary criticism has focused on language as a topic of discussion critical evaluations of Romanticism and Romantic writers rarely deal with it in terms derived from the philosophy of language This book evaluates the most prolific German Romanticist Ludwig Tieck 1773-1853 from such a linguistic viewpoint arguing that concerns in his work can be seen as forerunners of later language analysis from speech act theory to theories of reference It covers Tieck's whole career from his youth to his final novel *Vittoria Accorombona* providing a comprehensive analysis of this major author's work it will also be of interest to those interested in the linguistic aspects of Romanticism

Late Europeans and Melancholy Fiction at the Turn of the Millennium Ian Ellison, 2022-04-01 This book is the first comparative study of novels by Patrick Modiano W G Sebald and Antonio Muñoz Molina Drawing on many literary figures movements and traditions from the Spanish Golden Age to German Romanticism to French philosophy via Jewish modernist literature Ian Ellison offers a fresh perspective on European fiction published around the turn of the millennium Reflecting on what makes European fiction European this book examines how certain novels understand themselves to be culturally and historically late expressing a melancholy awareness of how the past and present are irreconcilable Within this framework however it considers how backwards facing tradition oriented self consciousness burdened by a sense of exhaustion in European culture and the violence of its past may yet suggest the potential for re-enchantment in the face of obsolescence

Narcissism and Paranoia in the Age of Goethe Alexander Mathäs, 2008 The analyses of poems narratives dramas and critical texts by Moritz Schiller Herder Tieck Goethe Lavater and others shed new light on how progress in the medical philosophical and anthropological discourses of the time converge with aesthetic and literary considerations The volume illustrates how aspects of Freud's psychology have grown out of notions of subjectivity not confined to the Victorian age as is often assumed but with roots in the contradicting values of bourgeois emancipation Jacket

The Draw of the Alps Richard McClelland, 2023-10-24 The Alps have exerted a hold over the German cultural imagination throughout the modern period enthraling writers artists philosophers scientists and tourists alike The Draw of the Alps interrogates the dynamics of this fascination Though philosophical and aesthetic responses to Alpine space have shifted over

time the Alps continue to captivate at an individual and collective level This has resulted in myriad cultural engagements with Alpine space as this interdisciplinary volume attests Literature photography and philosophy continue to engage with the Alps as a place in which humans pursue their cognitive and aesthetic limits At the same time individuals engage physically with the alpine environment whether as visitors through the well established leisure industry as enthusiasts of extreme sports or as residents who feel the acute end of social and environmental change Taking a transnational view of Alpine space the volume demonstrates that the Alps are not geographically peripheral to the nation state but are a vibrant locus of modern cultural production As The Draw of the Alps attests the Alps are nothing less than a crucible in which understandings of what it means to be human have been forged Encyclopedia of Romanticism (Routledge Revivals) Laura Dabundo,2009-10-15

Schubert's Vienna Raymond Erickson,1997-01-01 The Vienna in which Franz Schubert lived for the thirty one years of his life was not just a city of music dance and coffeehouses a centre of important achievements in the arts It was also the capital of an empire that was constantly at war in the composer s youth and that became a police state during his maturity

Our Ladies of Darkness Joseph Andriano,2010-11-01 **Outing Goethe & His Age** Alice A. Kuzniar,1996 When Goethe christened the 1700 s the Century of Winckelmann and Kant dubbed it the Century of Frederick the Great they invoked two notorious figures in gay history This collection of twelve essays reclaims the Age of Goethe To call upon a literary designation of roughly the same period as a time when same sex erotic attraction suffused artistic production from Winckelmann s art treatises and Goethe s plays to Friedrich Schlegel s self reflexive novel Lucinde and Kleist s letters This volume employs historical biographical and textual evidence to paint a cohesive picture of the incontrovertibly sexual nature of male male and female female relationships in late eighteenth and early nineteenth century Germany The literature of this era bequeathed to us the cultural inventions of Romantic love classical femininity the marriage partnership and the aesthetics of beauty all as this volume demonstrates via and despite the ever resurgent erotic desire for one s own sex In the process it offers radically new readings of canonical authors including Wieland Lenz Goethe Friedrich Schlegel and Kleist in light of the eroticized same sex relations in their works **"Was deutsch und echt..."** Kasper Bastiaan van Kooten,2019-03-25 By examining theoretical debates about the nature of nineteenth century German opera and analyzing the genre s development and its international dissemination this book shows German opera s entanglement with national identity formation The thorough

study of German opera debates in the first half of the nineteenth century highlights the esthetic and ideological significance of this relatively neglected repertoire and helps to contextualize Richard Wagner's attempts to define German opera and to gain a reputation as the German opera composer par excellence. By interpreting Wagner's esthetic endeavors as a continuation of previous campaigns for the emancipation of German opera, this book adds an original and significant perspective to discussions about Wagner's relation to German nationalism.
