[Notes on Vermin](#) Caroline Hovanec, 2025-01-28. Vermin: rats, cockroaches, pigeons, mosquitoes, and other pests are to most people objects of disgust. And vermin metaphors likening human beings to these loathed creatures appear in the ugliest forms of political rhetoric. Indeed, vermin imagery has often been used to denigrate poor, foreign, or racialized people. Yet many writers have reclaimed vermin, giving new meaning to creeping rodents, swarming insects, and wriggling worms. Notes on Vermin is an atlas of the literary vermin that appear in modern and contemporary literature, from Franz Kafka's gigantic insect to Richard Wright's city rats to Namwali Serpell's storytelling mosquitoes. As parasites, trespassers, and collectives, vermin animals prove useful to writers who seek to represent life in the margins of power. Drawing on psychoanalysis, cultural studies, eco-Marxism, and biopolitics, this book explores four uses for literary vermin as figures for the repressed, thought the uncommitted, fugitive, the freeloading parasite, and the surplus life. In a series of short, accessible, interlinked essays, Notes on Vermin explores what animal pests can show us about our cultures, our environments, and ourselves. **Full Surrogacy Now** Sophie Lewis, 2021-08-31. Where pregnancy is concerned, let every pregnancy be for everyone. Let us overthrow in short the family. The surrogacy industry is estimated to be worth over 1 billion a year, and many of its surrogates around the world work in terrible conditions: deception, wage stealing, and money skimming are rife; adequate medical care is horrifyingly absent, and informed consent is depressingly rare. In Full Surrogacy Now, Sophie Lewis brings a fresh and unique perspective to the topic. Often we think of surrogacy as the problem, but Full Surrogacy Now argues we need more surrogacy, not less. Rather than looking at surrogacy through a legal lens, Lewis argues that the needs and protection of surrogates should be put front and center. Their relationship to the babies they gestate must be rethought as part of a move to recognize that reproduction is productive work. Only then can we begin to break down our assumptions that children belong to those whose genetics they share. Taking collective responsibility for children would radically transform our notions of kinship, helping us to see that it always takes a

village to make a baby
