*Egypt* Azmi Bishara, 2022-07-14 Azmi Bishara's seminal study of the 2011 Egyptian Revolution chronicles in granular detail the lead up to the momentous uprisings and the subsequent transition and coup. The book critically investigates the social and economic conditions that formed the backdrop to the revolution and the complex challenges posed by the transition from authoritarianism to democracy. Part One: From July Coup to January Revolution goes back to what is called the 1952 revolution or the 1952 Coup d'état and traces events until 2011 when Hosni Mubarak stepped down as the president of Egypt after weeks of protest. It highlights the relationship between the presidency and the army to show that contrary to popular belief, the presidency grew gradually stronger at the expense of other institutions, especially the army, and reached its apogee under Mubarak. Part Two: From Revolution to Coup d'Etat covers the critical stages from when the military junta took over the governing of Egypt as the Supreme Council of the Armed Forces (SCAF) and the election of Morsi up until the coup to overthrow his presidency. Using a democratic transition theory perspective, Azmi Bishara explains the failure of the democratic transition and how it has impacted on Arab revolutions ever since. Written while the revolutions were taking place, this book conveys a sense of immediacy and urgency as Bishara makes wide-ranging assessments with many of his forecasts corroborated in later years. The book is renowned for its use of primary source material, including interviews, statistics, and public opinion polls, thus preserving the memory of the revolution and remaining one of the most comprehensive reference books on the subject to date.

*The Steelworkers' Retirement Security System* Glenn Beamer, 2016-05-12 *The Steelworkers Retirement Security System: A Worker-based Model for Community Investment* articulates a new model for economic security based upon steelworkers' pension provisions and labor politics after World War II. Labor's collective bargaining agreements created interdependent commitments that sustained jobs and stabilized communities. The evidence in *The Steelworkers Retirement Security System* includes an empirical analysis of United States steel towns and case studies of Weirton, West Virginia; Bethlehem, Pennsylvania; and Johnstown, Pennsylvania. By understanding the politics that bound firms and workers together and adapting these commitments to the post-industrial economy, *The Steelworkers Retirement Security System* offers a new means by which communities can provide workers security and economic growth. This new model, the Guaranteed Pension and Community Investment plan, provides workers with lifetime retirement annuities and communities with reliable investment capital.
