The Empath Self-Care Blueprint Nick Trenton, 2020-06-23. Defend and claim your space, say no to people and compensate for your unique sensitivities. The world is noisy, intense and exhausting. For some it feels like they are wearing hearing aids and binoculars, unable to hide, recharge or shelter. This is no way to live. Stop the feeling responsible for the emotions of everyone around you. Learn to say no and defend your own space. The Empath Self Care Blueprint is a book written for empaths by an empath. If you've ever felt too many emotional and sensory burdens and struggled to breathe, this is the book for you. This book provides a much needed sense of relief; it will bring you the relaxation and peace you so desperately seek. You'll first learn what makes you different, how you perceive the world differently and most importantly how to live better and more happily. You'll get a full blueprint about taking advantage of your gifts and also protecting yourself. Understand the double edged sword that is the empath's mind. Tools for protecting yourself from sensory overload and exhaustion and managing compassion fatigue. Nick Trenton grew up in rural Illinois and is quite literally a farm boy. His best friend growing up was his trusty companion Leonard, the dachshund. RIP Leonard. Eventually he made it off the farm and obtained a BS in Economics followed by an MA in Behavioral Psychology. Practice self care, self protection and learn to declare your boundaries and limits. Answer the question: Why do I feel so intensely? Differentiate between normal empathy, narcissists, introverts, highly sensitive people and more. Learn to manage your energy as well as the people around you. Best practices for work, socializing and even romance.

Our New Human Consciousness Terry Sands, 2011-05 Every few thousand years our human culture experiences a massive evolutionary transformation In the next few years our consciousness will change very rapidly and move us beyond anything we can presently imagine This change of consciousness is happening naturally to each of us now and it will affect every aspect of how we think how we live and how we love We are a culture in search of its spirit and this change of consciousness is evolutionarily next for humankind on this planet When the awareness opens one may search many avenues and attractions for truth and enlightenment and find the search lacking in result The next step may be the path of Self discovery But the direction on this path will not be given to us by a great teacher who comes down from the mountaintop with answers cast in stone but rather by lots of little great teachers who could be called pathfinders And to move into this new consciousness we will transform the mind and the way it works with new mental skills and mental technology Our success is inevitable The ease or difficulty with which we achieve this success is still in formation We will survive the transition physically The question is whether we will survive psychologically Psychological survival in this transition depends on only one thing Developing the ability and inner discipline to completely instantaneously unquestioningly and continuously adapt to change
