

AUTOBIOGRAPHY OF A BANYAN TREE

I am a banyan tree. My abode is a small town. It's developing fast. I am just twenty. You may term me youth. These days' banyan trees hardly survive for seventy to eighty years. I am telling about the life-span for my variety. We have three types based on place of growing, viz. rural, suburban and metropolitan.

The rural banyan trees are also termed as classical type. They are on the verge of extinction. Their average life-span is four-hundred years. In the countryside, assemblage for market, meeting, musical orchestra, drama, etc. takes place beneath their shadow. You will find their reference in the classics of prolific story-tellers Bankim Chandra, Tarashankar, Prabhatkumar, Sarat Chandra and the like.

I belong to town category. Before I narrate my bringing up, let me add a few words on our life struggle. We live in small town or suburban. Our births generally take place in disputed places. It may be due to human touch or natural reasons. Thus, very often you will find germination of our seeds at places like the cracks of old buildings, decomposed portion or holes in trees, heaps of garbage, etc. It's needless to mention that we face turbulent and uncertain periods in our childhood. Sometimes, people become ruthless upon us. They don't hesitate to uproot. Beheading is a common onslaught. Especially, it's unleashed upon us with fanfare on the eve of Durga Puja. Thus, it's difficult for us to grow by the side of streets in the town. There is no scope for extending roots underneath as well. The workers of Drinking Water Supply Department do not hesitate to cut our roots on the plea of laying pipes. The onslaughts from other departments like PWD, BSNL, TNGC, etc just add insult to the injuries. Sometimes, activists styled as environmentalists do cry for our save. But, it's showy; they are biased towards metropolitan sect.

But, there is always an element of natural selection. At times, the Nature favours us to grow even in rocky soils. My comrades feel it lucky if a stone underneath comes out due to exposure in weather. The

Autobiography Patrick C. James, 2013-01-07 The world is indeed small and for many of us a world view is lacking so that smallness is not necessarily a good thing My friend Patrick James was born in relative prosperity on the small outrageously beautiful Caribbean island of Dominica where opportunities for travel for a rewarding career and for a satisfying life can be a dream followed by reality witness the twice as many Dominicans as those living in Dominica who are living working or comfortably retired in such far flung countries as the U S A the United Kingdom and Canada During his growing up years however and as a result of circumstance Patrick experienced wild swings of fortune but because he was fortunate enough to be blessed with great intelligence and sensitivity he grasped education as his means for personal fulfillment as well as his ticket off the island and into the greater world To do so meant severing family ties that sustain us in difficult times including a short separation from his beloved grandfather who sent him back to his parents for petty thieving and so that he might learn a lesson the hard way become repentant ask for forgiveness and gleefully be accepted back into his beloved grandfather s household At that time 1938 Patrick s parents lived in Antigua approximately 90 miles away from Dominica and to Patrick Antigua did not feel like home Prior to Patrick s temporary banishment and from time to time all too sympathetic Patrick eight year old Patrick would steal a few pennies from his grandfather s shop drawer to feed his less fortunate and very hungry friends Finally Patrick was caught and sent away as a form of punishment for wrong doing While Patrick lived in Dominica with his grandfather he had to cope with the absence of his father who would have provided guidance and taught him to be self reliant Patrick grew up being all thumbs Later he taught himself self reliance Patrick overcame all obstacles and his travels would take him to several other islands in the Caribbean area including Guyana and Venezuela in South America both of which do have Caribbean sea fronts the Canary Islands off the west coast of North Africa Barcelona on Spain s Mediterranean coast line Genoa in Italy Nice and Paris in France Brussels Belgium Amsterdam the Netherlands the United Kingdom Johannesburg and Cape Town in South Africa Singapore Perth Western Australia and finally Florida U S A Patrick would see his love of education allowing him to teach into his eighties affecting the lives of thousands of human beings in many countries To meet Patrick is to meet an African American and a world citizen a cultured man with a beautiful English accent and a Caribbean lilt to his voice whose qualities of hard work empathy intelligence and respect are instantly apparent in the first moments of making his acquaintance and whose knowledge of world affairs literature and history and his unwavering religious faith make him a lodestone to his friends and acquaintances a leader by example to others and to children a guiding North Star to fulfilling their own hopes and dreams

Autobiography of Ahmed Sayeed Ahmed

Sayed,2019-12-19 Autobiography **Autobiography and Natural Science in the Age of Romanticism** Bernhard Kuhn,2016-04-15 Set against the backdrop of a rapidly fissuring disciplinary landscape where poetry and science are increasingly viewed as irreconcilable and unrelated Bernhard Kuhn's study uncovers a previously ignored fundamental connection between autobiography and the natural sciences Examining the autobiographies and scientific writings of Rousseau Goethe and Thoreau as representative of their ages Kuhn challenges the now entrenched thesis of the two cultures Rather these three writers are exemplary in that their autobiographical and scientific writings may be read not as separate or even antithetical but as mutually constitutive projects that challenge the newly emerging boundaries between scientific and humanistic thought during the Romantic period Reading each writer's life stories and nature works side by side as they were written Kuhn reveals the scientific character of autobiographical writing while demonstrating the autobiographical nature of natural science He considers all three writers in the context of scientific developments in their own times as well as ours showing how each one marks a distinctive stage in the growing estrangement of the arts and sciences from the self-assured epistemic unity of Rousseau's time to the splintering of disciplines into competing ways of knowing under the pressures of specialization and professionalization during the late Romantic age of Thoreau His book thus traces an unfolding drama in which these writers and their contemporaries each situated in an intellectual landscape more fragmented than the last seek to keep together what modern culture is determined to break apart **ANCESTRAL ECHO: My Life's Autobiography** Dr

Pradeep,2023-11-11 Ancestral Echo My Life's Autobiography by Dr Pradeep is a captivating autobiography that traces the author's family lineage back to Maharshi Harsh Datta Sharma in the 13th century chronicling the family's enduring legacy through the rise and fall of dynasties the emergence of luminaries and their experiences in the modern era The narrative seamlessly transitions to the author's own life demonstrating the profound connection between their personal journey and the collective family saga Ultimately the book serves as a testament to the importance of preserving ancestral knowledge bridging the past and the present and inspiring readers to explore their own family histories echoing the timeless power of heritage in shaping our identities and futures **Autobiography of an Avadhoota - Part I** Avadhoota
