Animation Critical and Primary Sources is a major multi volume work of reference that brings together seminal writings on animation studies Gathering historical and contemporary texts from a wide ranging number of sources the volumes provide a key resource in understanding and studying the past and future directions of animation studies The four volumes thematically trace animation studies from its many definitions or a lack thereof to the institutional nature of animation production to establishing greater space within animation discourse for the consideration of broadcast and interactive animation and finally giving greater contextual understanding of the field of animation studies by focusing on Authorship Genre Identity Politics and Spectatorship thus enabling readers to engage more deeply with the ideas discussed in the final volume Ordering the collection in this way avoids imposing an overly simplistic chronological framework thereby allowing

debates that have developed over years and even decades to stand side by side Each volume is separately introduced and the essays structured into coherent sections on specific themes **Autodesk Maya 2013** Todd Palamar, 2012 In this video based Autodesk Maya 2013 training course expert author and trainer Todd Palamar teaches you how to use this complex and powerful 3D modeling software Designed for the beginner this tutorial does not require you to have any prior experience with Maya or modeling at all Throughout this training course you will gain an understanding of the core features of Maya modeling animating and rendering projects You will start with some basic navigation and tools and then move directly into learning by working on projects that the author guides you through Each part of the project builds on the previous incorporating new techniques and tools as you proceed through the training You will also get an introduction to some of the more advanced features of Maya 2013 PaintFX nHair and nCloth By the completion of this software tutorial for Autodesk Maya 2013 you will have a good understanding of how to use the tools and techniques available to you to model add texture to objects animate and render your own projects Working files are included to allow you to work with the same files that the author is using in this training course
