The Jeep CJ the icon that started it all is the most popular off road vehicle of all time The look style and functionality of the CJ made it instantly popular and recognizable the world over in no doubt partly due to its military presence in World War II The Jeep Wrangler platform had the difficult task of replacing the extremely popular CJ platform Outwardly similar in appearance the YJ TJ and JK that followed all had significant design improvements as can be expected when a platform has a life span of more than five decades The YJ was the first Chrysler release after it purchased AMC in the mid 1980s and it was aimed at taming the original CJ for more comfort and arguably a larger audience The TJ that followed next was an evolutionary update significant in that it featured a coil spring suspension and the celebrated return of round headlights for a more traditional look compared to the square lights of the YJ In Jeep TJ 1997 2006 How to Build Modify everything you need to know about how to modify your TJ for off road use is covered Beginning with why you
