He'd be dangerously easy to fall for but there are more important things in life than love aren't there JAX I like to stay two steps ahead that way I'm never surprised. But even I didn't see this one coming. Congratulations to me I'm a freakin' dad. Now I've got a teenage daughter who hates me an ex who wants to cut things off my body I'm not ready to part with and an attraction to a curvy songbird that couldn't have come at a worse time. But I've never met a situation I couldn't handle and I've never let a female get the best of me. So why do I have the feeling Ariana Amante might be one more thing I never saw coming.

On a large farm located in the Andean foothills in the mid south of Chile Conrado was born and raised as a child and later a young man whose physical and psychological characteristics differ greatly from the rest of his family and the school community. He is Germanic in appearance blond blue eyed and very tall unlike the others whose features are those of Chileans and their Mapuche ancestors. What in his early years was painful for him due to the bullying he was subjected to at school ends up transforming into an obsession to understand where his Nordic genes come from. He discovers in an old trunk which had belonged to his great great grandmother Frederika who had arrived from Europe at the end of the 19th century the first clues about his origin. Already fully involved in the knowledge of his family's past he forges a life plan which includes the university study of German and History in order to reach the very source of the strange secret which is revealed through letters and documents from his great grandfather Ladislao Eguiguren Montalva who had been a member of the Chilean elite in those distant times. Little by little the hidden facets of the arrival of his great great grandmother to a place so far from her native country are discovered. In his exhaustive investigation Conrado even goes so far as to travel to Europe to recognize the place of origin of his German family and chance takes him first to the Mediterranean coast where he meets the youth of the still existing rancid nobility and in the midst of them his Swiss Italian cousin who not only facilitates his family research but also gives him her support against his father the Duke of Starkenbach who flatly refuses to accept the upstart as a member of his ancestral family. With her he arrives at the family's ancestral castle in the middle of the Swiss Alps where a past of almost pathological loves and a sordid family drama are revealed in which the young man is involved body and soul. To make matters better the two young people end up falling in love and Conrad manages to free Elisabetta from her life full of excesses as part of that European aristocratic youth. You'll find here a deeply evocative exploration of the ways in which personal and familial identities are shaped by history culture and memory. Through its richly developed characters vivid settings and poignant themes the novel invites readers to reflect on the legacies we inherit and the choices we make in preserving or redefining them. Ramdohr's work stands as a testament to the power of storytelling in bridging the past and the present offering a narrative that is as universal in its emotional resonance as it is uniquely grounded in its cultural context. *The Spark* Sylvie Stewart, 2018-04-04
