Blueprint For Action A Future Worth Creating:

Blueprint for Action Thomas P.M. Barnett,2006-10-03 If The Pentagon s New Map was a compelling framework for confronting twenty first century problems Business Week Barnett s Blueprint for Action is something more a powerful road map through a chaotic and uncertain world to a future worth creating Barnett explores our possible long and short term relations with such nations and regions as Iran Iraq and the Middle East China and North Korea Latin America and Africa while outlining the strategies to pursue the entities to create and the pitfalls to overcome China's Future Nuclear Submarine Force Lyle J Goldstein,Andrew S. Erickson,William S. Murray,Andrew Wilson,2012-04-30 One of the key concerns of naval strategists and planners today is the nature of the Chinese geostrategic challenge Conceding that no one can know for certain China s intentions in terms of future conflict the editors of this hot topic book argue that the trajectory of Chinese nuclear propulsion for submarines may be one of the best single indicators of China s ambitions of global military power Nuclear submarines with their unparalleled survivability remain ideal platforms for persistent operations in far flung sea areas and offer an efficient means for China to project power This collection of essays presents the latest thinking of leading experts on the emergence of a modern nuclear submarine fleet in China Each contribution is packed with authoritative data and cogent analysis The book has been compiled by four professors and analysts at the U S Naval War College who are co founders of the college s recently established China Maritime Studies Institute Given the opaque nature of China s undersea warfare development readers will benefit from this penetrating investigation that considers the potential impact of even the most revolutionary changes in Chinese nuclear submarine capabilities The editors believe that to ignore such possibilities would be the height of strategic folly and represent inexcusable negligence in terms of U S national defense Anyone who is interested in the future of the U S Navy and the defense of the United States will find this book to be essential reading

Lilly, DBA/IB, Ed. D., O.M., **The Geopolitics of American Insecurity** Francois Debrix,Mark Lacy,2009-01-13 This edited volume examines the political social and cultural insecurities that the United States is faced with in the aftermath of its post 9 11 foreign policy and military ventures The contributors critically detail the new strategies and ideologies of control governance and hegemony America has devised as a response to these new security

threats The essays explore three primary areas First they interrogate the responses to 9 11 that resulted in an attempt at geopolitical mastery by the United States Second they examine how the US response to 9 11 led to attempts to secure and control populations inside and outside the United States resulting in situations that quickly started to escape its control such as Abu Ghraib and Katrina Lastly the chapters investigate links between contemporary regimes of state control and recently recognized threats arguing that the conduct of everyday life is increasingly conditioned by state mobilized discourses of security These discourses are it is argued ushering in a geopolitical future characterized by new insecurities and inevitable measures of biopolitical control and governance

The Rise of the Global Imaginary Manfred B.

Steger,2008-07-03 Neoliberalism Neoconservatism Postmarxism Postmodernism Is there really something genuinely new about today s isms Have we moved past our traditional ideological landscape Combining political history philosophical interpretation and good old fashioned story telling Manfred Steger traces ideology s remarkable journey from Count Destutt de Tracy s Enlightenment science of ideas to President George W Bush s imperial globalism Rejecting futile attempts to update modern political belief systems by adorning them with prefixes the author offers instead a highly original explanation for their novelty their increasing ability to articulate deep seated understandings of community in global rather than national terms This growing awareness of globality fuels the visions of social elites who reside in the privileged spaces of our global cities It erupts in the hopes and demands of migrants who traverse national boundaries in search of their piece of the global promise Stoked by cross cultural encounters technological change and scientific innovation the rising global imaginary has destabilized the grand political ideologies codified during the national age The national is slowly losing its grip on people s minds but the global has not yet ascended to the commanding heights once occupied by its predecessor Still the first rays of the rising global imaginary have provided enough light to capture the contours of a profoundly altered ideological landscape Pointing in this direction the book ends with a timely interpretation of the apparent convergence of ideology and religion in the dawning global age a broad phenomenon that extends beyond the obvious cases of Christian fundamentalism and Islamic jihadism
