Prasanna, Bhabani Sinha, Prithviraj Banerjee. Message from the Steering Chair. It is my pleasure to welcome you to the Sixth International Conference on High Performance Computing. I hope you enjoy the meeting, the rich cultural heritage of Calcutta as well as the mother Ganges, the river of life. Web Engineering and Peer-to-Peer Computing Enrico Gregori, Ludmila Cherkasova, Gianpaolo Cugola, Fabio Panzieri, Gian P. Picco, 2003-06-30. This book constitutes the refereed proceedings of the two thematic workshops held jointly with Networking 2002. WEB Engineering and Peer to Peer Computing Networking 2002 was organized by the Italian National Research Council CNR and was sponsored by the IFIP working groups WG 6.2 Network and Internetwork Architectures, WG 6.3 Performance of Communication Systems and WG 6.8 Wireless Communications. The program of the conference covered five days and included the main conference, three days, two tutorial days and one day of thematic workshops. The International Workshop on Web Engineering was dedicated to the discussion of the principal issues that emerge in the design and implementation of large scale complex Web based systems. Scalability issues pose a number of challenging problems to solve for both applications and the underlying web network infrastructure. On one hand, web services and internet applications must take into account network performance and transport protocol design to achieve acceptable performance and robustness. On the other hand, emerging network and Web technologies are determined by the requirements of these applications. Fifteen papers were presented that illustrated the current state of the art in this area. In addition to the authors of these papers, the Workshop on Web Engineering was attended by about thirty participants who contributed to the workshop by stimulating fruitful discussions at the end of each presentation. Thus, this workshop provided an excellent opportunity for researchers from both industry and academia to gather, exchange ideas and discuss recent results.
