Pamela Enderby, Derick Wade

Aphasia Screening Test:

Aphasia Screening Test Renata Whurr, 1996 The Aphasia Screening Test AST is a standardised comprehensive yet simple screening test battery designed specifically for use with older adults with acquired aphasia during the early stages of evaluation to identify severe to moderate levels of language disturbance The AST is a short practical clinical tool easy to use and administer It provides an objective baseline of language impairment It yields quantitative as well as qualitative information providing a profile on which to base treatment Re testing produces objective outcome measures of changes in language function There are 50 short subtests each of 5 items organised in levels of difficulty from simple to complex 20 which assess the input modalities of auditory and reading comprehension and 28 which assess the output modalities of oral and written language production There are 2 subtests of calculation Factor analysis of the AST resulted in six clear and statistically significant factors providing evidence for the reliability and internal consistency of the AST A discriminant analysis resulted in identifying the most discriminating sub tests and provided the basis of the 10 subtest 4 input and 6 output The Short Form AST can be used as an initial screen for patients who can not respond to the full 50 subtests procedure The second edition of the Aphasia Screening Test is box packed and contains 1 AST Test Display Book 41 pages spiral bound 1 AST Test Instruction Manual including 14 case histories 57 pages 1 AST Test Statistics Manual full standardisation data 71 pages 1 AST booklet of 45 Test Cards spiral bound 5 AST Test Objects 10 AST Test Composite Assessment Record Forms 10 AST Test Writing Booklets 1 AST Short Form AST 10 Subtest Display Booklet and Instruction Manual spiral bound 16 pages 5 AST Short Form Test Cards 10 AST Short Form Assessment Record Forms 10 AST Short Form Writing Booklets Further copies of these items may be downloaded at www.wiley.com/go/aphasiasscreeningtest **An**
