timeline and glossary *Racial Politics in Post-Revolutionary Cuba* Mark Q. Sawyer, 2005-11-28 This book analyzes the triumphs and failures of the Castro regime in the area of race relations It places the Cuban revolution in a comparative and international framework and challenges arguments that the regime eliminated racial inequality or that it was profoundly racist Through interviews historical materials and survey research it provides a balanced view The book maintains that Cuba has not been a racial democracy as some have argued However it also argues that Cuba has done more than any other society to eliminate racial inequality The contemporary outlook of the book demonstrates how much of Cuban racial ideology was unchanged by the revolution Thus the current implementation of market reforms and in particular tourism has exacerbated racial inequalities Finally it holds that despite these shortcomings the regime remains popular among blacks because they perceive their alternatives of the US and the Miami Exile community to be far worse **Suspect Freedoms** Nancy Raquel Mirabal, 2017-01-10 Beginning in the early nineteenth century Cubans migrated to New York City to organize and protest against Spanish colonial rule While revolutionary wars raged in Cuba expatriates envisioned dissected and redefined meanings of independence and nationhood An underlying element was the concept of Cubanidad a shared sense of what it meant to be Cuban Deeply influenced by discussions of slavery freedom masculinity and United States imperialism the question of what and who constituted being Cuban remained in flux and often suspect The first book to explore Cuban racial and sexual politics in New York during the nineteenth and twentieth centuries *Suspect Freedoms* chronicles the largely unexamined and often forgotten history of more than a hundred years of Cuban exile migration diaspora and community formation Nancy Raquel Mirabal delves into the rich cache of primary sources archival documents literary texts club records newspapers photographs and oral histories to write what Michel Rolph Trouillot has termed an unthinkable history Situating this pivotal era within larger theoretical discussions of potential future visibility and belonging Mirabal shows how these transformations complicated meanings of territoriality gender race power and labor She argues that slavery nation and the fear that Cuba would become another Haiti were critical in the making of early diasporic Cubanidades and documents how by the late nineteenth and early twentieth centuries Afro Cubans were authors of their own experiences organizing movements publishing texts and establishing important political revolutionary and social clubs Meticulously documented and deftly crafted *Suspect Freedoms* unravels a nuanced and vital history **Black Mosaic** Candis Watts Smith, 2019-07-30 Historically Black Americans have easily found common ground on political social and economic goals Yet there are signs of increasing variety of opinion among Blacks in the United States due in large part to the influx of Afro Latino Afro Caribbean and African immigrants to the United States In fact the very definition of African American as well as who can self identify as Black is becoming more ambiguous Should we expect African Americans shared sense of group identity and high sense of group consciousness to endure as ethnic diversity among the population increases In *Black Mosaic* Candis Watts Smith addresses the effects of this dynamic demographic change on Black identity and Black politics Smith explores the numerous

ways in which the expanding and rapidly changing demographics of Black communities in the United States call into question the very foundations of political identity that has united African Americans for generations African Americans political attitudes and behaviors have evolved due to their historical experiences with American Politics and American racism Will Black newcomers recognize the inconsistencies between the American creed and American reality in the same way as those who have been in the U S for several generations If so how might this recognition influence Black immigrants political attitudes and behaviors Will race be a site of coalition between Black immigrants and African Americans In addition to face to face interviews with African Americans and Black immigrants Smith employs nationally representative survey data to examine these shifts in the attitudes of Black Americans Filling a significant gap in the political science literature to date Black Mosaic is a groundbreaking study about the state of race identity and politics in an ever changing America

Uniting Blacks in a Raceless Nation Miguel Arnedo-Gómez, 2016-05-12 The Cuban writer Nicolás Guillén has traditionally been considered a poet of mestizaje a term that whilst denoting racial mixture also refers to a homogenizing nationalist discourse that proclaims the harmonious nature of Cuban identity Yet many aspects of Guillén s work enhance black Cuban and Afro Cuban identities Miguel Arnedo Gómez explores this paradox in Guillén s pre Cuban Revolution writings placing them alongside contemporaneous intellectual discourses that feigned adherence to the homogenizing ideology whilst upholding black interests On the basis of links with these and other 1930s Cuban discourses Arnedo Gómez shows Guillén s work to contain a message of black unity aimed at the black middle classes Furthermore against a tendency to seek a single authorial consciousness be it mulatto or based on a North American construction of blackness Guillén s prose and poetry are also characterized as a struggle for a viable identity in a socio culturally heterogeneous society

Black Writing, Culture, and the State in Latin America Jerome C. Branche, 2021-04-30 Imagine the tension that existed between the emerging nations and governments throughout the Latin American world and the cultural life of former enslaved Africans and their descendants A world of cultural production in the form of literature poetry art music and eventually film would often simultaneously contravene or cooperate with the newly established order of Latin

American nations negotiating independence and a new political and cultural balance In *Black Writing Culture and the State in Latin America* Jerome Branche presents the reader with the complex landscape of art and literature among Afro Hispanic and Latin artists Branche and his contributors describe individuals such as Juan Francisco Manzano who wrote an autobiography on the slave experience in Cuba during the nineteenth century The reader finds a thriving Afro Hispanic theatrical presence throughout Latin America and even across the Atlantic The role of black women in poetry and literature comes to the forefront in the Caribbean presenting a powerful reminder of the diversity that defines the region All too often the disciplines of film studies literary criticism and art history ignore the opportunity to collaborate in a dialogue Branche and his contributors present a unified approach however suggesting that cultural production should not be viewed narrowly especially when studying the achievements of the Afro Latin world
