Beyond a Boundary C. L. R. James, 2013-06-17 This new edition of C L R James's classic *Beyond a Boundary* celebrates the fiftieth anniversary of one of the greatest books about sport and culture ever written

India's Nonviolent Freedom Struggle Clara A. B. Joseph, 2023-11-30 India's Nonviolent Freedom Struggle is a groundbreaking book that offers a fresh perspective on the Indian freedom struggle

It focuses on the Thomas Christians, a group of Christians in South India who waged a nonviolent struggle against European colonization during the politically volatile period of 1599-1799. The book has three related objectives and unique characteristics. First, it offers a comprehensive study of primary sources that scholars have referenced but rarely studied in depth. Second, it argues that the Thomas Christian narratives provide a unique position to challenge prevalent estimations found in canonical and postcolonial critical discourse on the nation. Third, the book considers how an account of a nonviolent struggle by Thomas Christians further complicates received ideas of the postcolonial nation. The book sheds light on the often overlooked contributions of the Thomas Christians in India's nonviolent freedom struggle and challenges readers to reimagine the complex and often contentious relationship between colonizers and colonized. A unique contribution to the study of Indian history, this book is an essential read for scholars of colonialism, anticolonial movements, and the history of India.

The Anglican Church in the Anglophone Caribbean Chris Fauske, 2025-10-02 This book highlights the Church's significant cultural, social, and political presence across the Anglophone Caribbean. Individual authors collectively provide a series of readings of historical and contemporary issues negotiated by the Anglican Church in the Caribbean that capture the complex, integral role the church played in shaping the individual identities of the islands while seeking also to be a pan-national voice for a shared set of global values and aspirations expressed regionally. The volume offers religious and secular readers an opportunity to better understand the role and history of the Anglican Church in the region. It acknowledges historical failures, challenges the notion that the church is colonial, and highlights the continuing importance of the Church to individual lives and regional aspirations. Combining examination of the church's complicated relationship with history and a variety of personal engagements with Anglicanism in the Caribbean, *The Anglican Church in the Anglophone Caribbean* demonstrates the continuing significance of the Anglican Church in the development and contemporary life of the region.

Asian Americans and the Spirit of Racial Capitalism Jonathan Tran, 2022 Any serious consideration of Asian American life forces us to reframe the way we talk about racism and antiracism. There are two contemporary approaches to antiracist theory and practice. The first emphasizes racial identity to the exclusion of political economy, making racialized life in America illegible. This approach's prevalence in the academy and beyond now rises to the level of established doctrine. The second approach views racial identity as the function of a particular political economy, what is called racial capitalism, and therefore analytically subordinates racial identity to political economy. Jonathan Tran develops arguments in favor of this second approach. He does so by means of an extended analysis of two case studies, a

Chinese migrant settlement in the Mississippi Delta 1868 1969 and the Redeemer Community Church in the Bayview Hunters Point section of San Francisco 1969 present While his analysis is focused on particular groups and persons he uses it to examine more broadly racial capitalism s processes and commitments at the sites of their structural and systemic unfolding In pursuing a research agenda that pushes beyond the narrow confines of racial identity Tran reaches back to trusted modes of analysis that have been obscured by the prevailing antiracist orthodoxy and proposes reframing antiracism in terms of a theologically salient account of political economy *The Amateur* Saikat Majumdar,2024-06-13 Included in The Best Scholarly Books of 2024 The Chronicle of Higher Education Can ignorance mistake failure shape ways of reading or do they disrupt its proper practice What happens when the authority of modern education and culture places canonical western texts in the way of readers who live in worlds remote from their material contexts The Amateur reads patterns of autodidacticism and intellectual self formation under systems of colonial education that are variously repressive exclusionary broken or narrowly instrumental It outlines the development of a wide range of writers activists and thinkers whose failed relationships with institutions of knowledge curiously enabled their later success as popular intellectuals Bringing current debates around reading together with the history of higher education in the postcolony it focuses on three primary locations Black intellectuals in apartheid era South Africa in the aftermath of the Bantu Education Act of 1953 20th century Caribbean writers who sought to understand the disembodied legacy of the diaspora through accidental encounters with literature and history and writers from late colonial and postcolonial India whose disruptive self formation departed from the administrative project of professionalizing a particular kind of colonial subject Celebrating flawed and accidental forms of reading writing and learning along the periphery of the historical British Empire Majumdar reveals an unexpected account of the humanities in the postcolony Insurgent Empire Priyamvada Gopal,2019-06-25 Much has been written on the how colonial subjects took up British and European ideas and turned them against empire when making claims to freedom and self determination The possibility of reverse influence has been largely overlooked Insurgent Empire shows how Britain s enslaved and colonial subjects were not merely victims of empire and subsequent beneficiaries of its crises of conscience but also agents whose resistance both contributed to their own liberation and shaped British ideas about freedom and who could be free Insurgent Empire examines dissent over the question of empire in Britain and shows how it was influenced by rebellions and resistance in the colonies from the West Indies and East Africa to Egypt and India It also shows how a pivotal role in fomenting dissent was played by anti colonial campaigners based in London at the heart of the empire *Sociocultural Issues in Sport and Physical Activity* Robert Pitter,David L. Andrews,Joshua I. Newman,2022-02-21 Sociocultural Issues in Sport and Physical Activity explores the intersections between modern physical activity and society The text surpasses the scope of sociological texts that focus solely on sports covering a broad range of physical activities such as fitness dance weightlifting and others The authors emphasize the promotion of healthy individuals and a healthy body in the many movement settings where the

body is active Sociocultural Issues in Sport and Physical Activity explores contemporary topics such as reducing disparities in education and income increasing socioeconomic diversity in communities the medicalization of fitness the rise of cosmetic fitness the promotion of physical activity as a requirement for health and the globalization of the fitness industry The text includes the following features to enhance student engagement Chapter objectives help students achieve their learning goals Key points and terms to highlight important information throughout the text Active Bodies sidebars that offer context for concepts presented in the chapter and provide examples and applications Discussion questions that provide opportunities to reflect on chapter topics Part I of Sociocultural Issues in Sport and Physical Activity examines political educational media and economic institutions that influence the relationship between society and physical activity Part II explores how an individual's race gender social class and ability are interpreted through a social lens Part III of the text discusses the process of developing healthy populations as well as promoting public health and body positivity Sociocultural Issues in Sport and Physical Activity offers a cross cultural perspective of society health and the body in motion Readers will finish the text with a greater understanding of social theory applications in physical culture Beyond a Boundary CYRIL L.
