we'll cover everything you need to start. In the first module you'll learn how to get stuck into Apache Cordova and find out how to use it as the key platform for developing your mobile app. It offers an efficient way to develop hybrid apps which means you won't have to connect to platform specific APIs or use their UI framework and can instead harness your JavaScript web development skills. Make sure you have your HTML, CSS and jQuery skills at the ready. In Module 2 we'll show you how to take advantage of React Native. It has a reputation for having a steep learning curve but we'll make it easy for you, making sure you make full use of your existing knowledge and getting you up and running with a sample application. You'll also learn how to create components, how to create multiple screens as well as using native UI components and accessing native APIs. In the third and final module you'll get started with Ionic. With three practical projects you can build yourself we've made sure that you'll be learning by doing which means you'll not only develop new skills much more quickly but you'll have produced something tangible at the end of it. This Learning Path combines some of the best that Packt has to offer in one complete, curated package. It includes content from the following Packt products: *JavaScript Mobile Application Development* by Hazem Saleh, 2014-10-21. If you are a native mobile developer with some familiarity with the common web technologies of JavaScript, CSS and HTML, or if you are a web developer, then this learning guide will add great value and impact to your work. *Learning how to develop mobile applications using Apache Cordova* is of particular importance if you are looking to develop applications on a variety of different platforms efficiently. *Meteor in Action* by Stephan Hochhaus, Manuel Schoebel, 2015-09-17.
