Assembling Workflows

To assemble a workflow from a set of actions, drag and drop the actions from the Automator Library into the sequence where you want them to run. Each action in the workflow corresponds to a step you must perform manually.

Each action has options and settings you can configure. System Image Utility connects these action components with the types of data that are flowing from one action to another.

You can save your assembled workflows to reuse later.

Adding Existing Workflows

You can update or modify workflows by adding them to the System Image Utility.

To add existing workflows to System Image Utility:

- 1 Open System Image Utility.
- 2 Click the Add (+) button and select the workflow you want to add to the System Image Utility.

Workflows have the workflow file extension.

- 3 Click Open.
