New Models of Care for Patients with Severe Mental Illness - Bridging In- and Outpatients Martin Heinze,Yasser Khazaal,Alexandre Wullschleger,2018-03-13 Over the past years psychiatric services have been continuously faced with the challenge of providing comprehensive care to people suffering from severe mental illnesses Legal and conceptual advances like the UN convention on the rights of persons with disabilities or the concept of recovery have rendered this challenge more actual and urgent than ever However psychiatric institutions often show only low levels of cooperation and integration between their different services Hence they need to develop new ways of bridging all sectors of care in order to help people most in need on their way to recovery and full inclusion in society In this research topic European researchers and clinicians present new ways of dealing with this essential issue by

developing strategies and interventions on both institutional and non institutional levels The nine contributions of this ebook thus reflect actual clinical and conceptual considerations They all aim at improving quality of care and providing adequate support to people suffering from severe mental illness
