Andrea Tyler, Lihong Huang, Hana Jan, 2018-04-23 Many SLA professionals remain unaware of what CL and Applied Cognitive Linguistics are and of the tremendous potential these approaches offer for our

understanding of L2 learning and pedagogy The volume addresses this gap by presenting theoretically grounded empirically based studies which illustrate the application of key concepts of CL and demonstrate the efficacy of using the concepts in the classroom or in basic L2 research **Applying Cognitive Linguistics** Ana María Piquer-Piriz,Rafael

Alejo-González,2018-08-03 In recent years Cognitive Linguistics CL has established itself not only as a solid theoretical approach but also as an important source from which different applications to other fields have emerged In this volume we identify some of the current most relevant topics in applied CL oriented studies analyses of figurative language both metaphor and metonymy in use constructions and typology and present high quality research papers that illustrate best practices in the research foci identified and their application to different fields including intercultural communication the psychology of emotions second and first language acquisition discourse analysis and translation studies It is also shown how different methodologies the use of linguistic corpora psycholinguistic experiments or discourse analytic procedures can shed some light on the basic premises of CL as well as providing insights into how CL can be applied in real world contexts Finally all the studies included in the volume are based on empirical data and there are some analyses of languages other than English Japanese Russian Spanish Danish German and Polish thus overcoming the contentions that CL theoretically based research is often based on linguistic intuition and focused only on the English language We hope that the present volume will not only contribute to a better understanding of how CL can be applied but that it will also help to encourage even further more robust empirical research in this field Originally published as a special issue of Review of Cognitive Linguistics 14 1
