Asian Godfathers Money And Power In Hong Kong And Southeast Asia:

Asian Godfathers Joe Studwell, 2010-09-03 40 or 50 families control the economies of Hong Kong Singapore Thailand the Philippines and Indonesia Their interests range from banking to property from shipping to sugar from vice to gambling 13 of the 50 richest families in the world are in South East Asia yet they are largely unknown outside confined business circles Often this is because they control the press and television as well as everything else How do they do it What are their secrets And is it good news or bad for the places where they operate Joe Studwell explosively lifts the lid on a world of staggering secrecy and shows that the little most people know is almost entirely wrong **Asian Godfathers** Joe Studwell, 2008-09-23 The author of *How Asia Works* follows the money Alarming enlightening Joe Studwell should be named chief myth buster for Asian business Financial Times Hong Kong and Southeast Asia are home to five hundred million people yet their economies are dominated by only fifty families whose interests range from banking to real estate shipping to sugar gambling to lumber At their peak eight of the world's two dozen richest men were Southeast Asian but their names would not be familiar to most regular readers of The Wall Street Journal A complex mythology surrounds these billionaires but in *Asian Godfathers* Joe Studwell finds that the facts are even more remarkable than the myths Studwell has spent fifteen years as a reporter in the region and he marshals his unprecedented sources to paint intimate and revealing portraits of the men who control Southeast Asia Studwell also provides us with a rich and deep understanding of the broader historic economic and political influences that have shaped Southeast Asia over the past 150 years *Asian Godfathers* is a riveting and illuminating book that lifts the curtain on a world of staggering secrecy and hypocrisy and reveals for the first time who the leaders of one of the planet's most important and tumultuous markets really are why they got to the top and how they keep themselves there The romp around the region's pleasure domes is a blast The Wall Street Journal Asia *Emerging Capitalism in Central Europe and Southeast Asia* F. Bafoil, 2015-12-24 This book examines the emergence of different forms of capitalism in Central Eastern states in Europe and Mekong states within the Association of Southeast Asian Nations ASEAN All of them but Thailand have historically disappeared from the regional maps for long periods of time due to colonial or imperial rule Most of them were previously members of a soviet type economy and they all joined ASEAN or the European Union in the 1990s or in the 2000s These states are characterized by a strong urge toward feelings of national sovereignty due to their experiences with colonialism and imperialism But due to the regional economic pressures and the globalization dynamic these states cannot articulate protectionist policies They are forced to open their economies in order to attract Foreign Direct Investments This results in less regulated and more political forms of capitalism than in some more developed capitalist countries This book analyzes forms of capitalism as the arising from a combination of three conditions the legacy of the foreign occupations the national construction process of the sovereign state and lastly the dynamics of regional integration These states claims to national sovereignty and the manner in which they developed suggests a causative link between the

forms of political domination that have presided over these transformations and the forms of capitalism that have resulted

Philippine Politics Lynn T. politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies. It analyses whether regional and local politics have more importance than national politics in the Philippines.
