Assessment In Online And Blended Learning Environments:

Assessment in Online and Blended Learning Environments Selma Koç,Xiongyi Liu,Patrick Wachira,2015-03-01 Online and blended learning requires the reconstruction of instructor and learner roles relations and practices in many aspects Assessment becomes an important issue in non traditional learning environments Assessment literacy i e understanding assessment and assessment strategies is critical for both instructors and students in creating online and blended environments that are effective for teaching and learning Instructors need to identify and implement assessment strategies and methods appropriate to online or blended learning This includes an understanding of the potential of a variety of technology tools for monitoring student learning and improving their teaching effectiveness From the students perspective good assessment practices can show them what is important to learn and how they should approach learning hence engaging them in goal oriented and self regulatory cognitions and behaviors The book targets instructors instructional designers and educational leaders who are interested in understanding and implementing either summative or formative assessment in online and blended learning environments This book will assist the relevant audience in the theory and practice of assessment in online and blended learning environments Providing both a research and practice perspective this book can help instructors make the connection between pedagogy and technology tools to maximize their teaching and student learning Among the questions addressed in this book are What assessment strategies can be used in online or blended learning How can instructors design effective assessment strategies What methods or technology tools can be used for assessment in online or blended learning How does peer assessment work in online or blended learning environments

Teaching in Blended Learning Environments Norman D. Vaughan,Martha Cleveland-Innes,D. Randy Garrison,2013-12-01 Teaching in Blended Learning Environments provides a coherent framework in which to explore the transformative concept of blended learning Blended learning can be defined as the organic integration of thoughtfully selected and complementary face to face and online approaches and technologies A direct result of the transformative innovation of virtual communication and online learning communities blended learning environments have created new ways for teachers and students to engage interact and collaborate The authors argue that this new learning environment necessitates significant role adjustments for instructors and generates a need to understand the aspects of teaching presence required of deep and meaningful learning outcomes Built upon the theoretical framework of the Community of Inquiry the premise that higher education is both a collaborative and individually constructivist learning experience the authors present seven principles that provide a valuable set of tools for harnessing the opportunities for teaching and learning available through technology Focusing on teaching practices related to the design facilitation direction and assessment of blended learning experiences Teaching in Blended Learning Environments addresses the growing demand for improved teaching in higher education
