Edward W. Marx, 2023-07-17 Everyone talks innovation and we can all point to random examples of innovation inside of healthcare information technology but few repeatable processes exist that make innovation more routine than happenstance How do you create and sustain a culture of innovation What are the best practices you can refine and embed as part of your organization's DNA What are the potential outcomes for robust healthcare transformation when we get this innovation mystery solved Through timely essays from leading experts the first edition showcased the widely adopted healthcare innovation model from HIMSS and how providers could leverage to increase their velocity of digital transformation Regardless of its promise innovation has been slow in healthcare The second edition takes the critical lessons learned from the first edition expands and refreshes the content as a result of changes in the industry and the world For example the pandemic really shifted things Now providers are more ready and interested to innovate In the past year alone significant disruptors such as access to digital health have entered the provider space threatening the existence of many hospitals and practices This has served as a giant wake up call that healthcare has shifted And finally there is more emphasis today than before on the concept of patient and clinician experience Perhaps hastened by the pandemic the race is on for innovations that will help address clinician burnout while better engaging patients and families Loaded with numerous case studies and stories of successful innovation projects this book helps the reader understand how to leverage innovation to help fulfill the promise of healthcare information technology in enabling superior business and clinical outcomes Computerworld

Distribution of Mimbres Pottery Darrell Creel, 2022-10-15 The Production and Distribution of Mimbres Pottery assesses a much expanded INAA data set and presents a new and more informed interpretation of ceramic production and distribution in the Mimbres region *Archaeologists as Activists* M. Jay Stottman, 2010 Examines the various ways in which archaeologists can and do use their research to forge a partnership with the past and guide the ongoing dialogue between the archaeological record and various contemporary stakeholders Could archaeologists benefit contemporary cultures and be a factor in solving world problems Can archaeologists help individuals Can archaeologists change the world These questions form the root of archaeology activism or activist archaeology using archaeology to advocate for and affect change in contemporary communities Archaeologists currently change the world through the products of their archaeological research that contribute to our collective historical and cultural knowledge Their work helps to shape and reshape our perceptions of the past and our understanding of written history Archaeologists affect contemporary communities through the consequences of their work as they become embroiled in controversies over negotiating the past and the present with native peoples Beyond the obvious economic contributions to local communities caused by heritage tourism established on the

research of archaeologists at cultural sites archaeologists have begun to use the process of their work as a means to benefit the public and even advocate for communities In this volume Stottman and his colleagues examine the various ways in which archaeologists can and do use their research to forge a partnership with the past and guide the ongoing dialogue between the archaeological record and the various contemporary stakeholders They draw inspiration and guidance from applied anthropology social history public history heritage studies museum studies historic preservation philosophy and education to develop an activist approach to archaeology theoretically methodologically and ethically
