Better Library Design Ideas Journal:

Better Library Design Rebecca T. Miller, Barbara A. Genco, 2016 Few librarians build more than one library in their careers and renovating or building a whole new library is a very expensive investment. Thus new or refurbished structures need to be fresh and up to date. While some librarians have the means to visit exemplary buildings as they develop their own library's master plan, most library leaders and stakeholders won't actually see the full range of potential projects. Hence this unique book is both a resource and a brainstorm prompt. It helps library leaders and key stakeholders surface the ideal programmatic aspects that drive exciting design and offer recent design solutions that have been effectively implemented. **Better Library Design Ideas** from *Library Journal* identifies and celebrates the top trends in library design capturing current state and provides an authoritative overview for those planning their own projects. This is a colorful high content survey of dynamic library building projects completed in the last five years in both public and academic settings. Anchored by *Library Journal*'s New Landmark Libraries competition here is the nation's best examples of innovative functional appealing design all in glorious full color so you'll be both inspired and informed as you make important design choices.

Planning Optimal Library Spaces David R. Moore II, Eric C. Shoaf, 2018-01-25 **Planning Optimal Library Spaces: Principles, Process, and Practices** demystifies library space planning, inspires creative thinking, and offers immediate how-to steps to rectify seemingly hopeless situations. It describes an approach to library space planning that introduces and combines a phased implementation strategy with traditional space planning to allow library transformations and renovations to be done as a single project or a series of smaller, separate and more manageable phased interventions. It allows libraries to meet current needs sooner as smaller funding opportunities arise instead of waiting on completely funded projects to develop. Chapters cover the approach, the importance of community engagement, meetings, collection storage strategies, the anatomy of a library project budget.
