Beyond Difference Beyond Difference:

Beyond Equality and Difference Gisela Bock, Susan James, 2005-09-23 Historically as well as more recently women's emancipation has been seen in two ways sometimes as the right to be equal and sometimes as the right to be different These views have often overlapped and interacted in a variety of guises they have played an important role in both the development of ideas about women and feminism and the works of political thinkers by no means primarily concerned with women's liberation The chapters of this book deal primarily with the meaning and use of these two concepts in the context of gender relations past and present but also draw attention to their place in the understanding and analysis of other human relationships

Beyond Oneness and Difference Brook Ziporyn, 2013-10-29 Beyond Oneness and Difference considers the development of one of the key concepts of Chinese intellectual history Li A grasp of the strange history of this term and its seemingly conflicting implications as oneness and differentiation as the knowable and as what transcends knowledge as the good and as the transcendence of good and bad as order and as omnipresence raises questions about the most basic building blocks of our thinking This exploration began in the book's companion volume Ironies of Oneness and Difference which detailed how formative Confucian and Daoist thinkers approached and demarcated concepts of coherence order and value identifying both ironic and non-ironic trends in the elaboration of these core ideas In the present volume Brook Ziporyn goes on to examine the implications of Li as they develop in Neo Daoist metaphysics and in Chinese Buddhism ultimately becoming foundational to Song and Ming dynasty Neo Confucianism the orthodox ideology of late imperial China Ziporyn's interrogation goes beyond analysis to reveal the unsuspected range of human thinking on these most fundamental categories of ontology metaphysics epistemology and ethics

Beyond Sex Differences Eric B. Keverne, 2017-09-07 Recent developments in behavioural neuroscience and genomics are providing exciting new tools for understanding mammalian evolution Drawing on a range of disciplines including genomic reprogramming immunology genomic imprinting placentation and brain development this book examines the leading role played by the mother's genome and epigenome in the successful evolutionary progression of humans from ancestral mammals Keverne begins by discussing the historic context of the perceived dominance of males and the patriline before arguing that it is instead the matriline that exerts the dominant influence in shaping the evolution of our brain development and behaviour especially the co-adaptive development of brain and placenta Presenting a balanced outlook on the development of sex differences and an alternative to traditional views Beyond Sex Differences will be of interest to anyone studying and researching mother and infant development

A Consultant Beyond Compare Joanna Neil, 2016-08-15 His bride at last After a traumatic incident Dr Katie Sorenson vows never to work in the E R again until she happens upon an accident and all her training instinctively kicks in Impressed by her skill handsome doctor Alex Brooklyn invites her to join his team in the Lake District She soon finds herself enjoying the fast-paced medicine and Alex proves to be everything she could ask for in a consultant and in a man Will all be lost when her

past comes back to haunt her **Beyond the Traditional Essay: Increasing Student Agency in a Diverse Classroom with Nondisposable Assignments** Melissa Ryan, Kerry Kautzman, 2022-07-12 This volume offers a range of responses to the problem of disposable assignments essays written just for a grade and then thrown away The scholars collected here explore how renewable assignments can contribute to public knowledge eliciting student work that is shared across networks of learning that does something that transcends the teacher's grade Although there is significant interest in such innovative teaching practices particularly in this year of pedagogical experimentation there are few resources for teachers that collect in one place both scholarly context and practical advice for implementing renewable assignments in the classroom The essays in this volume range widely from demonstrating how digital tools engage and empower reluctant learners to raising theoretical questions around intellectual property to measuring the success of renewable assignments through outcomes assessment *Beyond Postmodern Politics* Honi Fern Haber, 2021-12-24 In this book Honi Haber offers a much needed analysis of postmodern politics While continuing to work towards the voicing of the other she argues that we must go beyond the insights of postmodernism to arrive at a viable political theory Postmodernism's political agenda allows the marginalized other to have a voice and to constitute a politics of difference based upon heterogeneity But Haber argues that postmodern politics denies us the possibility of selves and community essential elements to any viable political theory **Beyond Versus** James Tabery, 2014-05-23 Why the nature versus nurture debate persists despite widespread recognition that human traits arise from the interaction of nature and nurture If everyone now agrees that human traits arise not from nature or nurture but from the interaction of nature and nurture why does the nature versus nurture debate persist In *Beyond Versus* James Tabery argues that the persistence stems from a century long struggle to understand the interaction of nature and nurture a struggle to define what the interaction of nature and nurture is how it should be investigated and what counts as evidence for it Tabery examines past episodes in the nature versus nurture debates offers a contemporary philosophical perspective on them and considers the future of research on the interaction of nature and nurture From the eugenics controversy of the 1930s and the race and IQ controversy of the 1970s to the twenty first century debate over the causes of depression Tabery argues the polarization in these discussions can be attributed to what he calls an explanatory divide a disagreement over how explanation works in science which in turn has created two very different concepts of interaction Drawing on recent developments in the philosophy of science Tabery offers a way to bridge this explanatory divide and these different concepts integratively Looking to the future Tabery evaluates the ethical issues that surround genetic testing for genes implicated in interactions of nature and nurture pointing to what the future does and does not hold for a science that continues to make headlines and raise controversy **Beyond Orientalism** Fred Reinhard Dallmayr, Packey J Dee Professor of Philosophy and Political Science Fred Dallmayr, 1996-01-01 Explores some steps toward non assimilative encounters in the global village Six Sigma and Beyond D.H. Stamatis, 2002-08-28 Researchers and professionals in all walks of life need to

use the many tools offered by the statistical world but often do not have the necessary experience in both concept and application No matter what your profession sooner or later numbers need to be crunched and often you need to understand how to do it and why it is important Quality c **Democracy Beyond the Nation State** Joe Parker, 2017-06-26 Explores egalitarian means of governing found in rural villages and urban neighborhoods indigenous communities workplaces social movement organizations and other everyday local and global settings beyond the nation state
