Post-Pandemic World Anthony Larsson,Andreas Hatzigeorgiou,2022-08-31 Are pandemics the end of cities Or do they present an opportunity for us to reshape cities in ways making us even more innovative successful and sustainable Pandemics such as COVID 19 and comparable disruptions have caused intense debates over the future of cities Through a series of investigative studies Designing Smart and Resilient Cities for a Post Pandemic World Metropandemic Revolution seeks to critically discuss and compare different cases innovations and approaches as to how cities can utilise nascent and future digital technology and or new strategies in order to build stronger resilience to better tackle comparable large scale pandemics and or disruptions in the future The authors identify ten separate societal areas where future digital technology can impact resilience These are discussed in individual chapters Each chapter concludes with a set of proposed action points based on the conclusions of each respective study These serve as solid policy recommendations of what courses of action to take to help increase the resilience in smart cities for each designated area Securing resilience and cohesion between each area will bring about the metropandemic revolution This book features a foreword by Nobel laureate Peter C Doherty and an afterword by Professor of Urban Technologies Carlo Ratti It provides fresh and unique insights on smart cities and futures studies in a pandemic context offers profound reflections on contemporary societal functions and the needs to build resilience and combines lessons learned from historical pandemics with possibilities offered by future technology The State of Open Data Davies, Tim,Walker, Stephen B.,Rubinstein, Mor,2019-05-22 It s been ten years since open data first broke onto the global stage Over the past decade thousands of programmes and projects around the world have worked to

open data and use it to address a myriad of social and economic challenges. Meanwhile issues related to data rights and privacy have moved to the centre of public and political discourse. As the open data movement enters a new phase in its evolution shifting to target real world problems and embed open data thinking into other existing or emerging communities of practice big questions still remain. How will open data initiatives respond to new concerns about privacy inclusion and artificial intelligence? And what can we learn from the last decade in order to deliver impact where it is most needed? The State of Open Data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world uncovering the issues that will shape the future of open data in the years to come.

Data Protection and Privacy: (In)visibilities and Infrastructures Ronald Leenes, Rosamunde van Brakel, Serge Gutwirth, Paul De Hert, 2017-02-07. This book features peer reviewed contributions from across the disciplines on themes relating to protection of data and to privacy protection. The authors explore fundamental and legal questions, investigate case studies and consider concepts and tools such as privacy by design, the risks of surveillance and fostering trust. Readers may trace both technological and legal evolution as chapters examine current developments in ICT such as cloud computing and the Internet of Things. Written during the process of the fundamental revision of EU data protection law, the 1995 Data Protection Directive, this volume is highly topical. Since the European Parliament has adopted the General Data Protection Regulation (Regulation 2016/679) which will apply from 25 May 2018, there are many details to be sorted out. This volume identifies and exemplifies key contemporary issues. From fundamental rights and offline alternatives through transparency requirements to health data breaches, the reader is provided with a rich and detailed picture including some daring approaches to privacy and data protection. The book will inform and inspire all stakeholders.

Researchers with an interest in the philosophy of law and philosophy of technology in computers and society and in European and International law will all find something of value in this stimulating and engaging work *The Participant* Christopher M. Kelty, 2020-01-21 Participation is everywhere today It has been formalized measured standardized scaled up network enabled and sent around the world Platforms algorithms and software offer to make participation easier but new technologies have had the opposite effect We find ourselves suspicious of how participation extracts our data or monetizes our emotions and the more procedural participation becomes the more it seems to recede from our grasp In this book Christopher M Kelty traces four stories of participation across the twentieth century showing how they are part of a much longer term problem in relation to the individual and collective experience of representative democracy Kelty argues that in the last century or so the power of participation has dwindled over time it has been formatted in ways that cramp and dwarf it even as the drive to participate has spread to nearly every kind of human endeavor all around the world *The Participant* is a historical ethnography of the concept of participation investigating how the concept has evolved into the form it takes today It is a book that asks Why do we participate And sometimes Why do we refuse
