

Styles of Anger – Assessment

Anger is a normal healthy emotion, and people use various communication styles to express their anger. It is important to note, that there is no wrong anger style as presented below. Awareness of our default style is the goal, so we can choose a preferred style to match the situation. Knowing our own anger style can help us be prepared when defusing a potentially violent situation. Use the attached assessment tool to find out your anger style.

Using the scale on the right, indicate how these statements reflect your actions and feelings when dealing with anger in the workplace.
