The Root Chakra represents our foundation and sense of stability. It governs our connection to the Earth, our survival instincts, and our ability to feel safe in the world. When balanced, it fosters a deep sense of belonging, resilience, and stability in our physical and emotional lives. This chakra also influences our relationship with material and financial security.

Development & Emotional Connections

This chakra develops in infancy and early childhood, particularly from birth to six months. It is shaped by early

interactions with caregivers, especially in meeting physical and emotional needs.

A secure foundation in childhood leads to a deep sense of trust, while early instability can create lifelong fears of scarcity and insecurity.
