Bioethics A Primer For Christians Third Edition:

Bioethics Gilbert Meilaender, 2013-01-06 Christian vision Procreation versus reproduction Abortion Genetic advance Prenatal screening Suicide and euthanasia Refusing treatment Who decides Gifts of the body organ donation Gifts of the body human experimentation Embryos the smallest of research subjects Sickness and health **Bioethics** Gilbert Meilaender, 2005 In the face of rapid advances in medical research and treatment bioethics has become a serious social concern Originally published in 1996 and later chosen by World magazine as one of the top 100 books of the twentieth century Gilbert Meilaender's *Bioethics* covers a wide range of pressing bioethical issues and offers discerning guidance on how Christians ought to think about them In admirably clear language Meilaender discusses abortion assisted reproduction genetic advance and prenatal screening care for the dying and euthanasia human experimentation and more This new edition of his *Bioethics* features updated information throughout a fuller discussion of human embryos including stem cell research and a thorough rewrite of the chapter on organ donation *A Jealous God* Pamela R. Winnick, 2005-10-30 A look at the personal and professional motivations behind the scientific community's dogmatic rejection of religion and how this impacts the culture The age old war between religion and science has taken a new twist Once the dedicated scientist martyr fought heroically against rigid religionists But now the tables have turned and it is established science crusading against religion pushing atheistic agendas in the classroom in textbooks and in the media This book shows how science has now become a religion of its own an often fanatical one at that furiously preaching atheism punishing dissenters dictating how and what we should think and subtly inserting its worldviews in everything from education to entertainment And with stunning clarity it proves that with billions of dollars up for grabs in the race for stem cell research intellectual integrity has been replaced with good old fashioned greed With sharp insight and completely original reporting this book defiantly shows the extent to which science is beating down religion and how this systematic tyranny is unmistakably weakening culture and society **The Breadth and Depth of the Atonement** Christian D. Kettler, 2017-05-11 Atonement For some this word is the heart of the Christian faith For others it is irrelevant for Christianity and how they live their Christian lives Often we do not see the breadth and depth of the atonement in the gospel Christian D Kettler in his fourth book on the vicarious humanity of Christ suggests that we consider that the atonement is not only a vicarious death in our place and on our behalf whether in the form of a penal substitute or a moral example but also his vicarious humanity having atoning significance for all of our lives indeed all of reality the church the world and the self These essays are collected from several years of Kettler's thought on the doctrine of the vicarious humanity of Christ and its implications for all of life and reality seeking to demonstrate that the doctrine of the atonement is not to be restricted to one small part of the doctrinal agenda but has profound implications that theology sometimes does not explore These issues include the nature of culture aesthetics creation out of nothing spiritual formation emotional weakness the priesthood of Christ and creation genetic engineering and trusting in the ideal self

Catholic Bioethics and the Gift of Human Life, Third Edition William E. May, 2013-07-26 In this revision of his already classic text William May shows us once again the wisdom of the Catholic Church's moral tradition in its application to contemporary bioethics Illuminating and engaging and with the attention to nuance that marks all of May's writing Edward J Furton M A Ph D Ethicist and Director of Publications The National Catholic Bioethics Center Since it was first published Dr May's text *Catholic Bioethics and the Gift of Human Life* has served an irreplaceable role in Catholic moral education His new revision adds clear systematic treatments of several additional issues of pressing moral concern to the Church and society Catholic educators everywhere will welcome this excellent revision I welcome it E Christian Brugger Associate Professor of Moral Theology Institute for the Psychological Sciences With so much bioethical thinking supporting the culture of death I can think of no better champion of a culture of life than Professor William E May Professor May has given us a book which is useful not only for its masterful summary of the moral magisterium on bioethics but also for its treatment of such issues as contraception artificial reproduction the care of the dying human experimentation and the definition of death and organ transplants Dr Mark S Latkovic Associate Professor of Moral Theology Sacred Heart Major Seminary What the Church teaches and why on issues of euthanasia in vitro fertilization genetic counseling assisted suicide living wills persistent vegetative state organ transplants and more

Religion & Ethics for a New Age Emmanuel K. Twesigye, 2001 In *Religion Ethics for a New Age* the problems of traditional Christian dogmas of evil death the fall violence sexuality patriarchal theological language and symbols are discussed within a global evolutionary context as well as that of the existential reality of cultural moral and religious pluralism Agape as the central commandment of Christ is adopted as the new universal grounding for true global Christian ethics sound religion humane moral and cultural values God's supernatural activities of creation and redemption are presented as coextensive with evolutionary history and life in the world as God's unfolding kingdom
