Caitlyn Jenner Carla Mooney, 2016-07-15 Countless media outlets reported it 2015 was the year of identity And by and large Caitlyn Jenner was a central figure in forging that dialogue When she revealed her gender identity as a trans woman Jenner shocked the public with her frankness bringing awareness of transgender rights into the public spotlight This biography tracks the life of one of America s most beloved athletes and television personalities putting emphasis on her role as a celebrity advocate for transgender individuals Sidebars highlight other celebrity figures who paved the way for Jenner and cover important topics such as language sensitivity and transgender suicide rates Metanoia Adam

Ellwanger, 2020-02-25 Western culture is in a moment when wholly new kinds of personal transformations are possible but authentic transformation requires both personal testimony and public recognition In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual s transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity The concept of metanoia is central to this project Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself a change in character or ethos He then applies this theory to our contemporary moment finding that metanoia provides unique insight into modern forms of self transformation Drawing on ancient and medieval sources including Thucydides Plato Paul the Apostle and Augustine as well as contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal Ellwanger elucidates the role of language in signifying and authenticating identity Timely and original Ellwanger s study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory philosophy rhetoric and the history of Christianity

Current Critical Debates in the Field of Transsexual Studies Oren Gozlan, 2018-03-13 Current Critical Debates in the Field of Transsexual Studies introduces new thinking on non conforming gender representation addressing transsexuality as a subjective experience that highlights universal dilemmas related to how we conceive identity and exploring universal questions related to gender its objects objections and obstacles This book seeks to disassemble prejudicial orientations to the challenges and the everydayness of transsexuality and build new understanding and responses to issues including medical biases the problem of authenticity and the agency of the child Oren Gozlen leads an examination of three central pressures transformation of a medical model the social experience of becoming transgender and the question of self representation through popular culture The chapters reframe several contemporary dilemmas such as authenticity pathology normativity creativity the place of the clinic as a problem of authority the unpredictability of sexuality the struggle with limits of knowledge a demand for intelligibility and desire for certainty The contributors consider sociocultural theoretical therapeutic and legal approaches to transsexuality that reveal its inherent instability and fluidity both as concept and as experience They

place transsexuality in tension and transition as a concept as a subject position and as a subjectivity The book also reflects the way in which political and cultural change affects self and other representations of the transsexual person and their others asking how does the subject metabolize the anxieties that relate to these transformations and facilitations How can the subject respond in contexts of hostility and prohibition Offering a much needed interdisciplinary exploration Current Critical Debates in the Field of Transsexual Studies will appeal to psychoanalysts and psychotherapist as well as psychologists and scholars of gender studies cultural studies and sociology
