Auto Repair For Dummies 2nd Second Edition By Sclar Deanna 2008:

Cool Careers Without College for People Who Can Build Things Heather Moore Niver, 2013-12-15 Finding a career out of high school based on one's interests especially something as general as liking to build things isn't always easy. However, this title gives readers a variety of avenues to consider. Readers can consider careers as a gardener, sculptor, tailor, carpenter, and even doll maker. Not only can they learn how to break into these fields, but each section has a listing of resources to further their research. With this title, young people just out of high school can take that ever-important first step on their way to a career.

Auto Repair For Dummies Deanna Sclar, 2019-01-07 Auto Repair For Dummies 2nd Edition 9781119543619 was previously published as Auto Repair For Dummies 2nd Edition 9780764599026. While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide, 400,000 copies sold, now extensively reorganized and updated. Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one-third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must, and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar, Long Beach, CA, an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
